Albert L. PEIA, Plaintiff v. UNITED STATES of America, et al., Defendants.

“...The facts are taken as alleged in the complaint[1]. Plaintiff alleges a broad-ranging conspiracy involving the United States of America, the U.S. Bankruptcy Courts, various U.S. District Court Judges, various U.S. Bankruptcy Trustees, the U.S. Attorney's Office, Donald Trump, the FBI, and fifteen John Doe defendants...” “...In 1987, Plaintiff commenced an action alleging civil RICO violations in the U.S. District Court for the District of New Jersey to recover money owed to him by a Mr. Dilena. The case was assigned to District Judge Maryanne Trump Barry[2]. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.[3] After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989...”

BUY THE LIE! WELCOME TO AMERICA AMERICA'S MAGICAL THINKING Elizabeth Cronise McLaughlin "...But it's not just that about which we are in denial. It's also about the death of American mythology. We've been lied to so long in America it's hard sometimes to know truth from fiction. I was born in 1971, and I was raised with history lessons in school that included things like Manifest Destiny (used to justify indigenous genocide, land theft, and the use of Chinese slave labor to build railroads), the "discovery" of America by Columbus (to justify violent colonialism), and the end of the enslavement of Black Americans as a distant historical event (as though the repercussions of it don't live on to this day given that slavery was the foundation of American capitalism and white supremacy). Even as recently as the past few years, many of us have fallen for the lie that this is a real democracy*. Democracy, though, requires real representation and rule by the people, under the theory that the people have the right to rule. Democracy is supposed to be in direct opposition to autocracy, where power of the few (whether monarchs or oligarchs) is lorded over the many through extreme wealth disparity, abuse of power, and control of the many to benefit those in power. I ask you: which one sounds like more like America today? As but one example, over the past few days I've seen polling that indicates that more than 88% of Americans favor background checks on gun sales, and more than 67% favor an assault weapons ban. The likelihood that any such legislation will pass, though, is literally nil absent reform of the filibuster, the end to which lies in the hands of a tiny, tiny number of people. Some of us have known for a long time that America was a lie. Some of us are just waking up to it. How do you grieve the promise of a nation that never was?..."

BIDEN'S GENIUS DÉTENTE HAS COST AMERICA THE OLD BALLGAME BY philbutler

"For it's 1, 2, 3 strikes you're out in the old, ball, game."

President Joe Biden's benefactors have lost the world, whether Russia wins or loses in Ukraine. This was a poignant message delivered by Fox News's Tucker Carlson the other day. Forcing the Russians to act, and pushing them into unbreakable alliances with China, India, and Iran, Biden and Co. have almost overnight turned the United States into one great big meaningless banana republic....This leaves us with only two possible answers as to "why" our leadership has burst out with godlike omnipotence. Either they are crazy as hell, as Tucker Carlson suggested, or the plan is to destroy what is left of the American dream for a cause! But, what could that cause be? Could it have anything to do with Hunter Biden and the "Big Guy?" Do the Chinese and the Ukrainians have that much dirt on America's 1st family? Or, is the profit for the western elites so immense if America fails, they consider destroying us a safe bet? Lunacy or Machiavellian scheming, at the end of the day we are already done.

We cannot nuke the world and win. We cannot engage in a conventional war with both China and Russia at once. And our 100 trillion dollars in debt economy cannot be pitted against Russia, the BRICS, Asia, and African business people sick unto death with our nasty omnipotence. If Biden does not back out of Ukraine now, it will be he and Justin Trudeau versus just about everybody on the planet pretty soon. Let's face it, Biden blew up Germany's and Europe's last cubic foot of camaraderie when the US Navy Seals set off explosives to end German industrialization. Yep. We lost. It's only the 9th inning, and the game's not technically over, but Biden and Co. have two outs, and two strikes on the batter in the bottom of the inning in what will certainly be a stunning loss. This is pitiful, but maybe my countrymen could use a big dose of reality and humility.

"For it's 1, 2, 3 strikes you're out in the old, ball, game."

GOLDMAN BOOSTS RECESSION ODDS

QUESTION: WHO IS PAYING TO BAIL OUT THE FAILED BANKS? –

ANSWER: YOU ARE MARCH 13, 2023 BY MICHAEL

Don't listen to the load of malarkey that Joe Biden is trying to sell you. We are being told that it won't cost taxpayers a single dime to bail out the second and third largest bank failures in the history of the United States. Every single depositor is going to get all of their money back, and plenty of liquidity will be made available to other banks that may be on the verge of failing. All of this is going to cost billions and billions of dollars, but somehow we get a free pass. In fact, during his public remarks on Monday, Joe Biden explicitly pledged that "no losses will be borne by the taxpayers"... [\(Read More...\)](#)

Hunt races to gather cash lifeline for tech companies hit by SVB collapse

◆ Funds trapped in failed bank ◆ Start-ups fear 'carnage' in wages and bills ◆ Bailout calls dismissed

BY REPORTERS

The chancellor is racing to provide a cash lifeline to a sector of tech businesses hit by the collapse of Silicon Valley Bank, as another attempt to save the company fails.

Prime Minister Boris Johnson yesterday described the collapse as "a serious risk" to tech and life sciences companies that used SVB's UK bank, with senior ministers warning of "carnage" if they were unable to pay wages and bills in the coming week.

The government spent the weekend racing to try to sell SVB UK and put together a backstop guarantee to protect those deposits are trapped in the failing bank.

The Bank of England announced on Friday that it would have to put the group's UK banking unit into liquidation, hours after US regulators shut down California-based SVB, the country's biggest bank failure since 2008.

Efforts to contain the crisis came as US authorities were racing to organise a rescue of the US organisation in an effort to ensure its clients could access their funds and prevent contagion from spreading to other banks. The Federal Deposit Insurance Corporation yesterday launched an auction process to find a buyer for SVB's US assets.

Treasury secretary Janet Yellen said the US government was working closely with banking regulators but dismissed calls from some of those with money caught up in SVB to launch a full-scale bailout.

Frank has dismissed a bailout of the UK arm of SVB and is instead focusing on helping cash-strapped tech groups. He says the government's role is to ensure that a bailout does not become a precedent for other businesses.

If there cannot be a rescue, government officials and regulators are working

hitting the usual rules on customer due diligence since their clients will have already passed KYC (know your customer) checks. However, government officials said that a scheme was not finalised and a number of details had to be worked out before markets opened this morning.

Breaking: The TRUTH About Nord Stream And Who Was REALLY Behind It...by Paradigm Press

When Russia's Nord Stream pipeline was decimated in September of last year, it had all the markings of a coordinated attack.

But no one claimed responsibility for it.

And the story was quickly swept under the rug by the mainstream media.

***The New York Times* simply called it a "mystery" and moved on.**

The New York Times

**In Nord Stream Mystery,
Baltic Seabed Provides a
Nearly Ideal Crime Scene**

But today, [there's startling evidence](#) about what really happened – and [who was really behind the whole operation.](#)

Here's what we know for sure...

1. President Biden has ALWAYS opposed the Nord Stream pipeline, considering it a direct threat to U.S. energy exports to Europe
2. Three weeks BEFORE Russia invaded Ukraine, Biden told reporters, "If Russia invades Ukraine... there will no longer be a Nord Stream 2."
3. Russia invades Ukraine on Feb. 24th, 2022
4. Eight months later, the Nord Stream pipeline is crippled by 4 massive explosions, 240 feet below the Baltic Sea.
5. U.S. energy exports to Europe surge to record highs in order to meet demand, just in time for winter

And that's only the beginning...

In [this new presentation](#), one ex-CIA insider pulls back the curtain on what *really* happened to Nord Stream...

And provides shocking evidence that shows President Biden's connection to it."

Nuclear move Biden parries Putin charge

Vladimir Putin delivers his state-of-the-nation address in Moscow yesterday, just hours before Joe Biden, far right, made his own speech in neighbouring Poland.

The Russian president and his allies would respond to his nuclear weapons treaty with the US days before the first anniversary of the full-blown war in Ukraine. "Our relations have degenerated and that's completely and utterly the US fault," he said.

The US president rebutted Putin's claim that western belligerence had caused the war. "The war was not planned to attack Russia... Every day the war continues in his choice," Biden said.

The timing of the war-gone speeches sharpened the contrast between Putin and Biden, two veteran leaders who clashed in the cold war whose legacies might be defined in the battlefields of Ukraine. Reports in analysis pages 6-8

THE FEDERAL RESERVE JUST MADE AN EMERGENCY DECISION WHICH WILL FUNDAMENTALLY CHANGE BANKING IN AMERICA FOREVER March 12, 2023 by Michael

Did you think that the Federal Reserve was just going to stand by and watch the U.S. banking system completely collapse? In response to the stunning failures of Silicon Valley Bank and [Signature Bank](#), the Federal Reserve announced a rescue plan on Sunday evening that is going to radically change banking in America forever. All deposits at Silicon Valley Bank and Signature Bank will be fully guaranteed and will be available on Monday. Of course the Federal Reserve can't just make an exception for these two banks. If they are going to do this for them, that means that they are going to have to do it for everyone else too. So what this means is that from this point forward the Federal Reserve is essentially promising to guarantee every bank account in America. Considering the fact

that [more than 19 trillion dollars](#) is deposited with U.S. banks, that is quite a promise to make. ([Read More...](#))

WELLS FARGO CUSTOMERS HAVE “INCORRECT BALANCES AND MISSING TRANSACTIONS” DUE TO AN ABSOLUTELY MASSIVE “NATIONWIDE COMPUTER GLITCH”

On the exact same day that we witnessed [the second largest bank failure in U.S. history](#), Wells Fargo experienced an unprecedented nationwide computer glitch that caused countless numbers of account holders to have “incorrect balances” and “missing transactions”. This is yet another example that demonstrates why it is never wise to put all of your eggs into one basket. If you have all of your money in just one bank, you may wake up one day and find that you are

suddenly not able to access any of it. For years I have been telling my readers to spread their assets around, because our banking system is far more vulnerable than most people realize.

[March 9, 2023](#) by [Michael](#)

Many Americans won't realize that World War III has begun until missiles start raining down on our homeland. But by then it will be way too late. Ever since Joe Biden entered the White House, our relations with both Russia and China have been steadily swirling down the tubes, and it appears that our military could soon be forced to fight wars with both of them simultaneously. That would be absolutely suicidal, but our leaders don't seem interested in peace. The hothead in the White House is surrounded by a team of incompetent warmongers, and if they

stay on the path that they are currently on millions upon millions of Americans could end up dead. ([Read More...](#))

HAVE WE REACHED “PEAK IDIOCRACY” YET?

We should all be absolutely horrified by what has happened to our society. Everywhere you look, people seem to be going completely and utterly nuts. Once upon a time, the crazy people were a very small segment of the population that could be easily ignored. But now the lunatics are literally running the asylum. If you doubt this, just look at our statehouses around the nation and the current crop of politicians that we have in Washington. Sadly, the truth is that the people that are representing us are a very accurate reflection of what we have become as a nation. We truly have become a raging “idiocracy”, and the rest of the world is literally laughing at us. ([Read More...](#))

CHINA WARNS “THERE WILL SURELY BE CONFLICT AND CONFRONTATION” WITH THE UNITED STATES IF NOTHING CHANGES March 7, 2023 by Michael

Chinese Foreign Minister Qin Gang just warned the entire world that “there surely will be conflict and confrontation” with the United States unless there is a dramatic change in U.S. behavior, and you would think that such a direct threat would be front page news all over the nation today. Unfortunately, most of our politicians don’t seem to understand how serious this is. We are accustomed to politicians that just blurt out whatever stupid things come into their heads at the moment, and then later on their aides come along and explain that they really didn’t mean to make such inflammatory statements. But Chinese politicians are not like that at all. Chinese politicians choose their words with great care, and making a direct threat against another nation is considered to be a very serious matter. In the years ahead it is inevitable that smaller regional conflicts will erupt at various times, but for this piece I am going to focus on the three big ones. All of the participants have been preparing for war for many years, and now tensions have reached a boiling point. WHAT IN THE WORLD HAS HAPPENED TO OUR SOCIETY?

March 2, 2023 by Michael

Things weren't always this horrible. Once upon a time, America's shiny new cities were the envy of the entire world. Our citizens dressed sharply, they treated one another with respect, and they

worked incredibly hard. But now our country is teeming with extremely slothful degenerates that want everything handed to them on a silver platter. Rampant greed is everywhere that you look, crime is completely out of control, we are facing the worst drug crisis in the entire history of our nation, millions of our fellow citizens are absolutely seething with hatred for one another, and those that attempt to stand up for what is right are considered to be the problem. We should be deeply grieved by what has happened to our society, because it truly is a great tragedy. ([Read More...](#))

Does anyone out there still believe that the United States is going to be able to avoid a shooting war with Russia? When the war began, Ukrainian President Volodymyr Zelensky begged our politicians for help, and our politicians did not disappoint him. So far we have poured nearly 200 billion dollars into the war, but Zelensky just keeps asking for more. [WORLD WAR III ALERT: THE RUSSIANS ARE MAKING A MAJOR BREAKTHROUGH AND THE UKRAINIANS ARE BECOMING INCREASINGLY DESPERATE](#)

[February 26, 2023](#) by [Michael](#)

The conflict in Ukraine has reached such a dangerous phase. For several months, the front lines in Ukraine were relatively stable, and that was a good thing because it meant that both sides were less likely to make really desperate moves. But now Russian forces are making a major breakthrough. The Ukrainians had poured countless troops into Bakhmut in an all-out attempt to keep the city, and they were able to successfully hold it for months. But now Russian forces have almost entirely encircled Bakhmut, and once Bakhmut falls there is going to be nothing but flat terrain between the Russians and the Dnieper River. If Russian forces actually reach the Dnieper River, the Ukrainians are going to become extremely desperate, and it is likely that they may try something extremely stupid in a desperate attempt to pull western forces into the war. DEATH, DESTRUCTION AND VIOLENCE EVERYWHERE YOU LOOK... FEBRUARY 24, 2023 BY [MICHAEL](#)

I have been called a “doom and gloomer” because I talk honestly about the things that are going on in our world. But I am not actually a “doom and gloomer” at all. In fact, I am [wildly optimistic about the future](#). Every piece of “bad news” is also a piece of “great news” if you look at it from the proper perspective. All of human history has been building up to a grand crescendo, and we get to be here for it. So even though there is death, destruction and violence all around us, this is not the end. Once we get through the “birth pains” that we are experiencing now, everything will be completely different. But it is certainly true that we have a whole lot of pain to go through before we get there. WHAT DO THESE 10 CRIME-RIDDEN CITIES ALL HAVE IN COMMON? **February 19, 2023** by **Michael**

All over America, crime has started to spiral out of control. But of course some areas are much worse than others. In particular, many of our most important core urban areas have degenerated into drug-infested, crime-ridden hellholes. Some pundits are using the term “war zones” to describe what is taking place in these areas, and unfortunately that is not an exaggeration. Once upon a time, the United States was one of the most civilized societies that the world had ever seen, but now we have become a cautionary tale to the rest of the planet. The fabric of our society is steadily decaying all around us, and if we stay on the path that we are on things will only continue to get even worse.

“#1 Memphis has become one of the most dangerous cities in America, and over the weekend they had a mass shooting [that made headlines all over the nation](#)...One person was killed and 10 were injured early Sunday after a shooting in Tennessee, according to a news release from the Memphis Police Department posted on Twitter. Police released photos of three men they said are persons of interest shortly before noon on Sunday. One of the men may have been injured and in need of medical attention, according to police.

#2 Portland was once one of the most beautiful cities on the entire planet, but now addicts openly get high [on Portland buses](#)...

#3 In New York City, organized retail theft has become really big business. And after having so much success in recent years, the thieves are starting to become [extremely brazen](#)...The New York Police Department released footage on Thursday of four thieves who robbed a Givenchy store in Manhattan in a brazen dawn raid, smashing their way in with a hammer and fleeing on foot with \$50,000 worth of goods. The three men and one woman broke into the SoHo store at 7:30am on Saturday, NYPD said.

#4 Philadelphia has been a violent place for a long time, but what we are witnessing now is truly frightening. On Saturday night, one police officer was ruthlessly shot in the head [by an 18-year-old kid](#)...An 18-year-old man was arrested for fatally shooting a Philadelphia police officer in the head – before trying to steal his gun on Saturday night. Miles Pfeffer, 18, is accused of shooting Temple University cop Chris Fitzgerald, 31, multiple times before going through his pockets and trying to steal his gun, according to the Philadelphia District Attorney’s Office.

#5 Seattle used to be different from other cities. In the old days, you could take your family down to the center of Seattle without

fearing for your life. But now crimes of extreme violence [have become quite common](#)...The violence meted out against a 29-year-old man in a restaurant parking lot on Aurora Avenue North last week was both “excessive and alarming,” according to King County prosecutors, who on Wednesday charged a 44-year-old man in the younger man’s death. Jorge Ardon Herrera suffered at least 20 injuries to his head, including multiple jaw fractures, according to the second-degree murder charge filed against Juan Manuel Gamez-Gamez.

#6 Washington D.C. once had “good areas” and “bad areas”. Unfortunately, almost everywhere in D.C. is a “bad area” now. Just recently, authorities finally cleaned up an open air drug market that was operating very close to the White House [“after months of promising to do so”](#)...The National Park Service (NPS) has cleared a dangerous homeless encampment in Washington, D.C.’s McPherson Square after months of promising to do so. The city requested that NPS clear the park, which is situated just blocks from the White House, after three overdose deaths occurred in the last six months. The homeless people living in the camp were made aware that the city intended to have the park cleared in April, but the eviction date was moved up to Wednesday due to “high levels of illegal drug activity and other dangerous and unsafe activities,” according to the Washington Post.

#7 San Francisco has become world famous for the drug abuse that goes on in that city. Earlier this month, a house where illegal drugs were being manufactured [literally exploded](#)...An arrest has been made on Friday in the house explosion that occurred Thursday in San Francisco’s Outer Sunset neighborhood, according to law enforcement. Darron Price, a 53-year-old resident, was booked for manslaughter, manufacturing drugs and two counts of child endangerment. Neighbors

continued to clean up their homes Friday evening following the deadly explosion. “The extent of the glass that was in the house was unbelievable. We picked up two garbage cans of glass and we’re still picking up glass,” said Jack Noriega.

#8 In Los Angeles, the criminals no longer have respect for anyone. In fact, a Catholic bishop was just brutally murdered [right inside his own home](#)...The shooting death of a Catholic bishop hailed as a ‘peacemaker’ in his predominantly Hispanic neighborhood is being treated as a homicide, police in the City of Angels said – a day after deeming the incident ‘suspicious.’ Revealed in a statement from the Los Angeles County Sheriff’s Office on Sunday, the murder probe comes roughly 24 hours after the high-ranking bishop, 69-year-old David O’Connell, was gunned down inside his Hacienda Heights home by an unknown assailant.

#9 When I was growing up, I was always told that you “don’t mess with Texas”. But these days the criminals in Austin, Texas [have the police on the run](#)...

#10 I certainly couldn’t do an article like this without mentioning Chicago. At this point, it is far more dangerous to be a young man in some areas of Chicago [than it is to go to war](#)...For more than a decade, some people have used the term “Chiraq” — a mashup of Chicago and Iraq — to describe a city whose violence makes some neighborhoods feel like battle zones. Now, researchers say they’ve found that some parts of Chicago are even deadlier for military-aged young men than what U.S. soldiers faced in war zones in Iraq and Afghanistan. The risk of a man 18 to 29 years old dying in a shooting in the most violent ZIP code in Chicago — 60624, a swath of the West Side that includes Garfield Park — was higher than the death rate for U.S. soldiers in the Afghanistan war or for soldiers in an Army combat brigade

IS SWITZERLAND ABOUT TO BECOME FIRST COUNTRY TO OUTLAW A CASHLESS SOCIETY?

As in neighboring Germany and Austria, cash is still king in Switzerland albeit a much diminished one. But the Swiss will soon have the chance to vote on whether to preserve notes and coins indefinitely...

THREE KEY ADVANTAGES CASH HAS OVER DIGITAL PAYMENTS:

1 First, cash makes managing your money clear and simple. It is easier to keep a firm grasp on your spending with notes and coins. You only have to open your wallet to see if you can afford additional expenses. It is with good reason that parents usually give children their pocket money in cash. By contrast, when you hold a plastic card up to a payment terminal, all you see is an amount that will be debited from your account at some point in the future.

2 Second, thanks to its simplicity of use, cash allows everyone to participate in the economy in social life. You do not need an account or a mobile phone to pay with coins and banknotes, nor do you need an affinity with digital technology.

3 Third, when paying by cash, you do not need to provide personal details such as your name or card number. With electronic payments, however, information about the persons making the payment and their payment behaviour is stored.

What In The World Is Going On At Asbury University?

February 17, 2023 by Michael

Are we actually witnessing a full-blown revival right here in the United States? For more than a week, there has been a non-stop prayer and worship awakening happening at Asbury University in Kentucky. Day and night, thousands of young people are gathered in the chapel to worship God, repent of their sins and read from the Bible. We haven't seen anything like this in a long time, and videos from the awakening are being viewed on social

media by millions of people all over the world. Amazingly, at this point these gatherings have created so much buzz that even the mainstream media is being forced to acknowledge what is going on. For example, the following comes from an [NBC News report... \(Read More...\)](#)

WHY IS THIS HAPPENING? THERE HAVE BEEN 5 MAJOR TRAIN DERAILMENTS IN THE UNITED STATES SO FAR THIS MONTH

February 16, 2023 by Michael

Why are so many train derailments suddenly in the news? That is a question that a lot of people are asking these days. Could it be possible that our trains are being targeted on purpose? Right off the top, I want to acknowledge that train derailments are fairly common. As the Biden administration has been reminding us, on average we normally see more than 1,000 train derailments each year. But the vast majority of them are relatively minor incidents that cause no harm. In fact, prior to this month I can't remember

the last time a train derailment made headline news all over the nation. ([Read More...](#))

February 20, 2023 by Michael

The true horror of what just happened in East Palestine, Ohio is starting to become clear, but federal, state and local officials continue to insist that everything is just fine. So even though local residents have been puking up blood and developing weird rashes on their skin, everyone is being told that it is perfectly safe to return to their homes and that it is perfectly safe to drink the water. This should make all of us extremely angry, because so many of these people are going to get sick and so many of them are going to die. ([Read More...](#))

13 NUMBERS THAT SHOW HOW DRAMATICALLY WE HAVE FAILED AMERICA'S CHILDREN

February 14, 2023 by Michael

“The kids are not okay, and it is time for us to face the truth. As long as I have been writing, surveys have shown that the mental health of our young people has been steadily getting worse. But now we are learning that things really took an enormous turn for the worse during the pandemic. As you will see below, one expert is warning that the number of kids that are dealing with mental health issues “has increased exponentially since the pandemic”. The facts that I am about to share with you are likely to make you very angry. Our system does not work, and millions upon millions of young people are having their lives ruined as a result. The following are 13 numbers that show how dramatically we have failed America’s children... [\(Read More...\)](#)

#1 One recent survey found that [40 percent](#) of U.S. parents “worry their children struggle with anxiety or depression”.

#3 Suicide is also [the second leading cause of death](#) for Americans between the ages of 15 and 24.

#4 According to a recent Pew Research Center poll, [46 percent](#) of U.S. kids between the ages of 13 and 17 have experienced cyberbullying.

#5 [40 percent](#) of U.S. high school students “felt so sad or hopeless” in 2021 that “they were unable to do their regular activities”.

#6 According [to the CDC](#), “more than 95% of children and adolescents in the U.S. spend much of their daily lives in school”.

#7 At [23 schools](#) in Baltimore, not one single student is proficient in math.

#8 At [30 schools](#) in Illinois, not one single student can read at grade level.

#9 At [53 schools](#) in Illinois, not one single student can do math at grade level.

#10 According [to the CDC](#), nearly 20 percent of all adolescent female students experienced sexual violence in 2021.

#11 According [to the CDC](#), nearly 60 percent of all adolescent female students “experienced persistent feelings of sadness or hopelessness” in 2021.

#12 According [to the CDC](#), nearly 25 percent of all adolescent female students “made a suicide plan” in 2021.

#13 The proportion of adolescent female students that actually attempted suicide in 2021 was [60 percent higher](#) than a decade ago.

Why are global authorities suddenly so concerned that the bird flu might start spreading widely among humans? And why is the mainstream media suddenly filled with extremely alarming stories about the disease? Just a few days ago, Dr. Tedros Ghebreyesus, the director-general of the World Health Organization, made headlines all over the globe when he ominously warned that [“we must prepare”](#) for the possibility of a bird flu pandemic among humans. Why is he issuing such a warning now? Does he know something that the rest of us do not? If such a pandemic were to erupt, the consequences could potentially be catastrophic. The COVID pandemic paralyzed the planet for a couple of years even though the death rate was very low. Well, the death rate for bird flu in humans can be around 50 percent depending on the strain, and so just imagine the panic that would ensue if it were to start spreading widely. [Is The U.S. Military Shooting “Alien Aircraft” Out Of The Sky?](#)

[February 13, 2023](#) by [Michael](#)

The Internet is full of speculation that at least some of the “unidentified objects” that the U.S. military has been shooting out of the sky may be “alien aircraft”. Could this be possible? The head of NORAD says that he is not ruling anything out at this point. What we do know is that the balloon that initially created this wave of hysteria did belong to China. The Chinese claim that it was a civilian air balloon that went off course, while U.S. authorities are telling us that it was likely a spy balloon. But once the Chinese balloon was shot down, NORAD made “adjustments” to their radar systems, and all of a sudden they noticed a number of other unexplained objects floating around. In recent days, three of these “unidentified objects” have been shot down, and right now we do not know what they were. ([Read More...](#))

11675177877 GREAT DEPRESSION STYLE WIPEOUT “The only prediction he makes is one that investors who follow him have heard many times over more than a decade—that the financial system is due for a serious reckoning. In this latest letter, he calls it “objectively the greatest tinderbox-timebomb in financial history—greater than in the late 1920s, and likely with similar market consequences.”

“A Great Depression style wipeout is quite the call, yet Mr. Spitznagel offers no timeline and suggests that the conscious postponement of a crash has contributed to its eventual severity. The analogy—one he has employed in the past—is that monetary and fiscal firefighters have been overzealous at stamping out financial conflagrations, setting the stage for an uncontrollable blaze. These apocalyptic predictions are where one suspects the consistent, coldly mathematical hedge-fund manager might be allowing his political views to color his commentary. He is closely associated with former presidential candidate Ron Paul, who has sought to abolish the Federal Reserve and restore the

gold standard and who has been making similar calls for decades. “The savings of millions could be wiped out. You can’t rely on Washington to help you,” he said in a 2015 ad. By explaining away the role of monetary and fiscal policy in averting crises as merely bottling up problems for an even bigger wipeout, the many years of failed predictions not only stay alive but gain heft.”

WE ARE ABOUT TO SEE THE BIGGEST ESCALATION OF THE WAR IN UKRAINE SO FAR

February 2, 2023 by Michael

We are getting dangerously close to a point of no return. For months, both sides have been continuously escalating the war in Ukraine, and now it appears that we are on the verge of the biggest escalation of them all. As I have been repeatedly warning my readers for weeks, the Russians have been gathering hundreds of thousands of fresh troops for a massive winter offensive. The exhausted Ukrainian forces are already stretched incredibly thin, and the losses that they have been suffering over the past couple of months have been nothing short of catastrophic. If the Russians decide to bring the hammer down, the Ukrainians will be in very serious trouble. ([Read More...](#))

We now know who blew up the Nord Stream pipelines, and it shouldn't be a surprise to any of us. The corporate media tried very hard to convince us that the Russians were behind the sabotage when it originally happened, but that didn't make any sense at all. It took 15 years to build the Nord Stream pipelines, and the total cost ultimately surpassed 20 billion dollars. So why would the Russians blow up pipelines that they had invested so much to construct and that were so critical to their own national economy? Sadly, many Americans unquestionably believed the narrative that was being pushed by the Biden administration, but now we have learned that it was the Biden administration that was actually behind the attack. [This Is The Real Significance Of The “Chinese Spy Balloon” Saga...](#) [February 5, 2023](#) by [Michael](#)

It took a balloon for millions of Americans to finally realize that we really are on the brink of war with China. When a four-star general [recently warned](#) that we would be fighting a war with China in 2025, that didn't create too much of a stir. And when

U.S. Representative Michael McCaul stated that odds of a war between the United States and China over Taiwan are “[very high](#)”, that barely made a blip in the news cycle. But the giant “spy balloon” that just floated across our country really got people fired up. Despite the fact that China has been relentlessly spying on us in countless other ways for years, many of our leaders are suddenly acting as if some huge change just happened. They are issuing all sorts of very angry statements and they are demanding action from the Biden administration. Meanwhile, the Chinese are pissed that we just shot down their “civilian airship” and they are warning that they have “the right to respond further”. ([Read More...](#))

AS OUR SOCIETY CONTINUES TO DETERIORATE ALL AROUND US, RISING CRIME has become one of the primary reasons why so many Americans are choosing to relocate to a different part of the country. According to the National Association of Realtors, there was a tremendous amount of domestic migration in 2022. Some people are choosing to relocate for better employment opportunities, some are choosing to relocate to states with lower tax rates, and some are choosing to relocate for health reasons. But to me, one of the most striking trends is the fact that red states with low crime rates are seeing tremendous population growth, while blue states with high crime rates are losing residents at a staggering pace. THIS IS AMERICA'S CULTURE NOW...

February 6, 2023 by Michael

If people that lived 50 or 60 years ago could see us today, what would they think of our culture? I believe that the performance of “Unholy” at the Grammy Awards on Sunday night will go down in history as a pivotal cultural moment. Yes, the “horror movie-inspired performance” that Sam Smith and Kim Petras came up with was designed to get as much attention as possible. They wanted people like me to write about it, and that is exactly what I am doing. But just because they were seeking attention does not change the fact that their performance was unspeakably evil. And it also does not change the fact that millions of their fans absolutely adored it. We have gotten to a point where our culture openly celebrates wickedness, and that is a very dangerous place to be. (Read More...)

Why are China and Russia both suddenly so concerned about mobilizing troops? What we are witnessing right now is unlike anything that we have seen since World War II. The Russians are mobilizing hundreds of thousands of fresh troops [as they prepare for a new offensive in Ukraine](#), and meanwhile NATO countries are getting ready to send heavy tanks to the Ukrainians for the first time since the war started. But why have the Chinese decided that a nationwide mobilization may soon be necessary? Is China expecting a war? It is being reported that anyone in China that is [“18 years or older”](#) could potentially be subject to mobilization under a brand new law which will go into effect next month. DRUDGEREPORT PUTIN'S 500,000 TROOP ASSAULT
'GAIN WORLD'S ATTENTION'

MACGREGOR: THIS TIME IT'S DIFFERENT

Neither we nor our allies are prepared to fight all-out war with Russia, regionally or globally... [UH OH!] “Until it decided to confront Moscow with an existential military threat in Ukraine, Washington confined the use of American military power to conflicts that Americans could afford to lose, wars with weak opponents in the developing world from Saigon to Baghdad that did not present an existential threat to U.S. forces or American territory. This time - a proxy war with Russia - is different. Contrary to early Beltway hopes and expectations,

Russia neither collapsed internally nor capitulated to the collective West's demands for regime change in Moscow. Washington underestimated Russia's societal cohesion, its latent military potential, and its relative immunity to Western economic sanctions. As a result, Washington's proxy war against Russia is failing. U.S. Defense Secretary Lloyd Austin was unusually candid about the situation in Ukraine when he told the allies in Germany at Ramstein Air Base on January 20, "We have a window of opportunity here, between now and the spring," admitting, "That's not a long time." Alexei Arestovich, President Zelensky's recently fired advisor and unofficial "Spinmeister," was more direct. He expressed his own doubts that Ukraine can win its war with Russia and he now questions whether Ukraine will even survive the war. Ukrainian losses—at least 150,000 dead including 35,000 missing in action and presumed dead—have fatally weakened Ukrainian forces resulting in a fragile Ukrainian defensive posture that will likely shatter under the crushing weight of attacking Russian forces in the next few weeks. Ukraine's materiel losses are equally severe. These include thousands of tanks and armored infantry fighting vehicles, artillery systems, air defense platforms, and weapons of all calibers. These totals include the equivalent of seven years of Javelin missile production. In a setting where Russian artillery systems can fire nearly 60,000 rounds of all types—rockets, missiles, drones, and hard-shell ammunition—a day, Ukrainian forces are hard-pressed to answer these Russian salvos with 6,000 rounds daily. New platform and ammunition packages for Ukraine may enrich the Washington community, but they cannot change these conditions. Predictably, Washington's frustration with the collective West's failure to stem the tide of Ukrainian defeat is growing. In fact, the frustration is rapidly giving way to desperation. Michael Rubin, a former Bush appointee and avid

supporter of America's permanent conflicts in the Middle East and Afghanistan, vented his frustration in a 1945 article asserting that, "if the world allows Russia to remain a unitary state, and if it allows Putinism to survive Putin, then, Ukraine should be allowed to maintain its own nuclear deterrence, whether it joins NATO or not." On its face, the suggestion is reckless, but the statement does accurately reflect the anxiety in Washington circles that Ukrainian defeat is inevitable. NATO's members were never strongly united behind Washington's crusade to fatally weaken Russia. The governments of Hungary and Croatia are simply acknowledging the wider European public's opposition to war with Russia and lack of support for Washington's desire to postpone Ukraine's foreseeable defeat..."

RIVETS ARE POPPING

We have seen this movie before. The Fed tightens, things break, the Fed reacts by opening the monetary flood gates and the

cycle begins all over again. Before things break you generally see signs that trouble is coming. We call this rivets popping.

There is always a lag effect between monetary policy and economic results. This current period reminds us of Summer 2007 when the Bear Stearns CDS funds failed. The GFC was 15 months later in the second half of 2008.

One very large rivet that has already popped is Great Britain as we described above. Another hugely important rivet that has not popped yet, but in our opinion is close is the US Stock Market.

We think the pain has just started. Particularly in the stock market where as the chart below shows, street estimates (blue bars) are looking for continued earnings growth as if no recession is imminent. Green bars show earnings decline in recessions. The economy is slowing rapidly and will almost surely enter a recession given the record inversion in the yield curve as seen in the 2year/10year bond spread. With softening demand and increased labor costs, earnings will suffer. The Wall Street analysts who are projecting further earnings growth are on drugs in our opinion. Additionally, with higher interest rates, price multiples to earnings will compress.

As you can see in Warren Buffett's key market indicator in the chart below, compared to GDP stocks are still valued at 2000 levels. Recall that from that level the stock market declined 50% when the Dotcom bubble burst. STOCKS ARE NOT CHEAP.

Additional rivets include the US Housing and Used Car Markets both of which show significant evidence of an economic slowdown as described in charts we have already covered above.

Some more recent rivets are as follows...[\(READ THIS FULL LETTER HERE\)](#).

1. The only inflationary data that has dropped is in the energy space (that and used cars).

3. Both A) and B) are over. China has reopened and the Biden admin has already depleted the U.S.'s emergency stash of oil by 40%... as a result of this oil and gasoline prices have bottomed and begun turning upwards again.

IF THIS IS WHAT THE FUTURE OF AMERICA'S MAJOR CITIES IS GOING TO LOOK LIKE, WE ARE IN BIG TROUBLE

How could we have allowed things to deteriorate this badly? For

a moment, I want you to imagine that you have just arrived in a major city in a foreign country. Unfortunately, instead of the shiny new buildings and beautiful homes that you expect to see, there is trash, filth and the sound of police sirens everywhere that you go. After walking a few blocks, you stumble upon one of the dozens of open air drug markets that are freely operating in that particular city. Many addicts are lying on the ground wherever they suddenly passed out, others with visible gaping wounds are staggering around like zombies, and you even spot one enterprising addict that has decided to take a dump right in the middle of the street. Of course there are used needles scattered everywhere, and you try not to step on them. You decide that it is time to leave, but it is already too late, because protesters behind you and in front of you have started to clash with the police. Moments later a police car is set on fire, and you can smell tear gas in the air. Thankfully, you are able to scramble to safety, and eventually you find your way back to your hotel room and lock the door. When you turn on the news to see what they are saying about the chaos in the streets, you are amazed to discover that it is being reported that the protests were “mostly peaceful” and that everything is just fine. We're resending the urgent email below to make sure you didn't miss it. The stakes are sky-high, and we're counting on your help.

Albert,

***The New York Times* has uncovered *another* Supreme Court ethics scandal, and it's a doozy.**

A little-known charity connected to the Court called the Supreme Court Historical Society has been raising millions from right-wing special interests with major cases before the justices — and none of it was disclosed to the public before now.

Chevron gave \$190,000 while the Supreme Court considered countless major cases on global warming and the environment. UPS gave more than half a million as the justices were considering a pregnancy discrimination suit against the

company. A corporate lawyer who advocated on behalf of Purdue Pharma, the notorious manufacturers of OxyContin, gave \$187,500.¹

And what did they get in exchange for their generosity? Direct access to the justices, including invitations to black-tie dinners, lectures, and other events.

The Supreme Court Historical Society scandal broke almost a month ago, and Chief Justice John Roberts and the other justices haven't said a word about it. No investigation, no accountability, no talk of reform. Nothing.

[The Supreme Court has proven that it can't be trusted to police itself and needs a legally binding code of ethics. Will you donate today to Demand Progress Action to help power our work, including urging Congress to pass the Supreme Court Ethics, Recusal, and Transparency Act?](#)

Albert L. PEIA, Plaintiff v. UNITED STATES of America, et al., Defendants.

“...The facts are taken as alleged in the complaint[1]. Plaintiff alleges a broad-ranging conspiracy involving the United States of America, the U.S. Bankruptcy Courts, various U.S. District Court Judges, various U.S. Bankruptcy Trustees, the U.S. Attorney's Office, Donald Trump, the FBI, and fifteen John Doe defendants...” “...In 1987, Plaintiff commenced an action alleging civil RICO violations in the U.S. District Court for the District of New Jersey to recover money owed to him by a Mr. Dilena. The case was assigned to District Judge Maryanne Trump Barry[2]. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.[3] After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989...”

HAS THE WORLD ECONOMIC FORUM JUST REACHED “PEAK CREEPY”? January 17, 2023 by Michael

“Why do people think that it is creepy that a group of “select

human beings” have gathered in Davos, Switzerland to shape the agenda of the entire planet? Could it be because many of the attendees are horny aging narcissists that truly believe that they are “saving the world”? During the day they listen to speeches about diversity, equality and inclusion, and then at night many of them pay young women to perform degrading sex acts. But since they have lots of money, they are able to pay the “sex workers” very well. Of course a lot of them flew into Davos on carbon-spewing private jets, but then they have the gall to lecture the rest of us about turning up our thermostats a little bit too much in the middle of the winter. Sadly, no matter what these elitists do, the mainstream media will continue to portray them as “saviors” that are justifiably telling the rest of us how to live our lives. [\(Read More...\)](#)”

January 29, 2023 by Michael

In secret facilities all over the planet, scientists are pushing the

envelope far beyond what most of us thought was possible. They are developing technologies that are decades ahead of what the general public has access to right now, and in many cases little regard is being given to any moral or ethical lines that are being crossed. Unfortunately, many of these new technologies are being designed to be used on us. The “Big Brother control grid” that we see all around us is going to continue to evolve, and each new “improvement” will give the elite even more control. Ultimately, the goal is to get everyone to be completely and utterly dependent on the system that they have created, and anyone that chooses not to be a good servant of that system will be dealt with ruthlessly. 11 SIGNS THAT THE ECONOMIC "TIPPING POINT" THAT EVERYONE'S BEEN WAITING FOR HAS ARRIVED

How bad do things have to get before people start realizing that we are in the midst of a full-blown economic crisis?

"The following are 11 signs that the economic "tipping point" that everyone has been waiting for has now arrived...

#1 U.S. manufacturing is declining at the fastest pace that we have seen since the early days of the COVID pandemic...

The S&P Global U.S. Manufacturing Purchasing Managers' Index (PMI) fell at the fastest rate since May 2020 in December, a continuing sign that the manufacturing sector is on the decline, S&P Global reported Tuesday.

The U.S. Manufacturing PMI posted a 46.2 in December, down from 47.7 in November and solidly below 50, which signals that the sector is contracting, according to S&P Global. Production levels contracted in back-to-back months, with new sales plummeting at the end of December at the fastest pace since

2007, as companies cited weakening demand amid “economic uncertainty” and inflation weighing on customers.

#2 U.S. services PMI has now fallen [for sixth months in a row](#).

#3 We just witnessed the largest one day drop in the Baltic Dry Index [since 1984](#)...

The Baltic Exchange’s dry bulk sea freight index crashed on Tuesday in the worst decline on record, sinking on prospects of a global recession.

Baltic Dry Good Index is a measure of global shipping and economic health. The overall index, which tracks rates for capesize, panamax, and supramax shipping vessels carrying dry bulk commodities, plunged 17.5% to \$1,250, the most significant daily decline since 1984.

#4 Thanks to rapidly falling imports, we just witnessed the largest monthly decline in the trade deficit [since the last financial crisis](#)...

According to the BEA, the November trade deficit narrowed to \$61.5b from \$77.8b in prior month, coming in below the median estimate of \$63.0BN (and just barely missing the top end of the range of \$61.3BN to \$80.5BN from 42 economists).

Remarkably, the 20% one-month decline in the deficit was the single biggest drop in the US trade deficit on a percentage basis going back to the global financial crisis!

#5 In 2022, U.S. auto sales were the lowest that we have seen for a full year [in more than a decade](#)...

Industrywide, U.S. auto sales totaled 13.7 million vehicles in 2022, the lowest figure since 2011 and an 8% decrease from the prior year, according to the research firm Wards Intelligence. Sales had topped 17 million vehicles for five straight years before

the Covid-19 pandemic struck in 2020, unleashing supply-chain problems that have bogged down deliveries ever since.

#6 The average rate on a 30 year fixed-rate mortgage is more than twice as high as it was this time last year...

Mortgage rates inched up again last week, after a slight increase the week before interrupted six straight weeks of falling rates.

The 30-year fixed-rate mortgage averaged 6.48% in the week ending January 5, up from 6.42% the week before, according to Freddie Mac. A year ago, the 30-year fixed rate was 3.22%.

#7 According to CNN, sales of apartments in Manhattan were 28.5 percent lower in the fourth quarter of 2022 than they were in the fourth quarter of 2021...

Higher rates and still-high housing prices cooled demand at the end of last year, causing sales to tumble. Sales dropped 28.5% in the fourth quarter compared to the fourth quarter of 2021.

#8 Overall, existing home sales in the United States have fallen for 10 months in a row and are now down by more than a third since January 2022.

#9 Bed Bath & Beyond is warning that the company is literally on the verge of declaring bankruptcy...

Bed Bath & Beyond warned Thursday it's running out of cash and is considering bankruptcy.

The retailer, citing worse-than-expected sales, issued a "going concern" warning that in the upcoming months it likely will not have the cash to cover expenses, such as lease agreements or payments to suppliers. Bed Bath said it is exploring financial options, such as restructuring, seeking additional capital or selling assets, in addition to a potential bankruptcy.

#10 It is being reported that Amazon has decided to lay off approximately 18,000 employees...

Amazon.com Inc. is laying off more than 18,000 employees — the biggest reduction in its history — in the latest sign that a tech-industry slump is deepening.

#11 Overall, the tech industry has already laid off more than 150,000 workers over the last year.”

Cities, regions have the biggest concentrations of millionaires around the world, each with a net worth greater than \$1 million

Millionaires and Billionaires in the Wealthiest Cities

In the latest edition of the ranking, North America has a strong showing with seven of the wealthiest cities, by number of millionaires.

In particular, the United States claims five of the cities in the top 10, including the very top spot with New York City.

Rank	City	Country	Millionaires	Billionaires
#1	New York	 United States	345,600	59
#2	Tokyo	 Japan	304,900	12
#3	San Francisco	 United States	276,400	62
#4	London	 United Kingdom	272,400	38
#5	Singapore	 Singapore	249,800	26
#6	Los Angeles	 United States	192,400	34
#7	Chicago	 United States	160,100	28
#8	Houston	 United States	132,600	25
#9	Beijing	 China	131,500	44
#10	Shanghai	 China	130,100	42
#11	Sydney	 Australia	129,500	16
#12	Hong Kong	 China (SAR)	125,100	28
#13	Frankfurt	 Germany	117,400	14
#14	Toronto	 Canada	116,100	17
#15	Zurich	 Switzerland	105,100	12
#16	Seoul	 South Korea	102,100	25
#17	Melbourne	 Australia	97,300	12
#18	Dallas	 United States	92,300	18
#19	Geneva	 Switzerland	90,300	16
#20	Paris	 France	88,600	15
Top 20 Cities			3,259,600	543

Asia is the region with the second most millionaires with six cities in the mix. Not surprisingly, China is home to three of these cities, including Hong Kong (SAR).

Europe comes in third with five cities, though only London makes into the top 10 portion of the ranking. Finally, Oceania has two cities on the list, both located in Australia.

When a six-year-old boy shoots his first-grade teacher with a gun, that should be a sign to all of us that our culture has gotten

completely out of control. Sadly, most of us will soon forget about that story because so many other examples of extreme violence will be making headlines. Our blood-soaked culture has produced an entire generation of young people that has become desensitized to violent acts, and that should deeply alarm all of us. A lot of Americans tend to focus on the rise in violent crime rates in our major cities, but the truth is that violence can suddenly erupt literally anywhere in this current environment.

Byron Wien Releases 10 Surprises For 2023: Fed Remains More Hawkish, Twitter Recovers, & MMT "Fully Discredited"

This is the 38th year Byron has given his views on a number of economic, financial market and political surprises for the coming year...

"Byron and Joe's Ten Surprises of 2023 are as follows:

- 1. Multiple candidates on both sides of the aisle organize campaigns to secure their party's presidential nomination. There are new headliner names on the respective tickets for 2024.**

- 2. The Federal Reserve remains in a tug-of-war with inflation, so it puts the word “pivot” on the shelf alongside the word “transitory.” The fed funds rate moves above the Personal Consumption Expenditures price index and real interest rates turn positive, a rare phenomenon relative to the last decade.**
- 3. While the Fed is successful in dampening inflation, it over-stays its time in restrictive territory. Margins are squeezed in a mild recession.**
- 4. Despite Fed tightening, the market reaches a bottom by mid-year and begins a recovery comparable to 2009.**
- 5. Every significant correction in the market has in the past been accompanied by a financial “accident.”
Cryptocurrencies had a major correction and that proved not to be a systemic event. This time, Modern Monetary Theory is fully discredited because deficits have proven to be inflationary.**
- 6. The Fed remains more hawkish than other central banks, and the US dollar stays strong against major currency pairs, including the yen and euro. This creates a generational opportunity for dollar-based investors to invest in Japanese and European assets.**
- 7. China edges toward its growth objective of 5.5% and works aggressively to re-establish strong trade relationships with the West, with positive implications for real assets and commodities.**
- 8. The US becomes not only the largest producer of oil, but also the friendliest supplier. The price of oil drops primarily as a result of a global recession, but also because of increased hydraulic fracking and greater production from**

the Middle East and Venezuela. The price of West Texas Intermediate crude touches \$50 this year, but there's a \$100 tick out there sometime beyond 2023 as the world recovers.

9. The bombardment, destruction and casualties in Ukraine continue for the first half of 2023. In the second half, the combination of suffering and cost on both sides necessitates a ceasefire and negotiations on a territorial split begin.

10. In spite of the reluctance of advertisers to continue to support the site and the skepticism of creditors about the quality of the firm's debt, Elon Musk gets Twitter back on the path to recovery by the end of the year.

The "Also Rans" of 2023

Every year there are always a few Surprises that do not make the Ten, because we either do not think they are as relevant as those on the basic list or we are not comfortable with the idea that they are "probable."

- Because of medical breakthroughs across the board, many people decide on a cryogenic burial, expecting to be defrosted when a cure for the disease that caused their demise is discovered. Funeral homes across the country advertise that "It's Nice to Be On Ice."**
- A technology breakthrough in reducing the carbon emissions of coal-fired plants takes the edge off the climate / global warming scare. This lowers the political pressure on emerging markets to make a rapid transition to renewable energy sources.**
- India begins to compete seriously to win/retain the manufacturing base that started looking for a new home**

after becoming increasingly uneasy with the uncertainty that has continuously surrounded US-China policies. The country initiates a campaign to attract global multinationals, focusing on its young population, relatively low income and growing consumer market, and prioritizing policies that incentivize investment in the auto, energy, pharma and tech sectors. Apple and Samsung are a proof of concept after successfully producing their respective flagship phones for global markets.”

US Inflation: How Much Have Prices Increased In 2022?

Inflation has been top of mind over the last year, looming over every aspect of the economy. But how has inflation actually impacted the prices of everyday goods like bread and butter or gas and public transportation?

ZH 15 Facts Which Prove That A Massive Economic Meltdown Is Already Happening Right Now

ECONOMIC CONDITIONS JUST KEEP GETTING WORSE...

"The following are 15 facts that prove that a massive economic meltdown is already happening right now...

#1 Existing home sales have now fallen for 10 consecutive months.

#2 Existing home sales are down 35.4 percent over the last 12 months. That is the largest year over year decline in existing home sales since the collapse of Lehman Brothers.

#3 Homebuilder sentiment has now dropped for 12 consecutive months.

#4 Home construction costs have risen more than 30 percent since the beginning of 2022.

#5 The number of single-family housing unit permits has fallen for nine months in a row.

#6 The Empire State Manufacturing Index has plunged "to a reading of negative 11.2 in December". That figure was way, way below expectations.

#7 In November, we witnessed the largest decline in retail sales that we have seen all year long.

#8 Even the biggest names on Wall Street are starting to let workers go. In fact, it is being reported that Goldman Sachs will soon lay off approximately 4,000 employees.

#9 The Federal Reserve is admitting that the number of actual jobs in the United States has been overstated by over a million.

#10 U.S. job cuts were 417 percent higher in November than they were during the same month a year ago.

#11 A recent Wall Street Journal survey found that approximately two-thirds of all Americans expect the economy to get even worse next year.

#12 A newly released Bloomberg survey has discovered that 70 percent of U.S. economists believe that a recession is coming in 2023.

#13 Inflation continues to spiral wildly out of control. At this point, a head of lettuce now costs 11 dollars at one grocery store in California.

#14 Overall, vegetable prices in the United States are more than 80 percent higher than they were at this same time last year.

#15 Thanks to the rapidly rising cost of living, 63 percent of the U.S. population is now living paycheck to paycheck.”

Is Bryan Kohberger A Metaphor For What Is Happening To Our Society As A Whole? January 2, 2023 by Michael

One homicidal lunatic has been caught, but there are countless other homicidal lunatics that are still roaming our streets. 28-year-old Bryan Kohberger has been charged with murdering Kaylee Goncalves, Madison Mogen, Xana Kernodle and Ethan Chapin in the early morning hours of November 13th. The murders were truly horrifying, and for weeks there was a tremendous amount of concern that the murderer would strike again. Now the mystery is finally over, but the truth is that Bryan Kohberger is not an isolated case. There are hordes of others just like him, and I believe that he is a metaphor for what is happening to our society as a whole. ([Read More...](#))

[ARE YOU A “THOUGHT CRIMINAL”?](#) by [Michael](#)

“If we are not free to think what we want, we do not have a free society. It really is that simple. Unfortunately, there is now an overwhelming consensus among elitists in the western world that radical measures must be instituted to control what people think. If you insist on being a rebel, there is a very good chance that you will be punished for holding unorthodox views. You won’t necessarily be put in prison, but our system has countless other ways that it can punish you. For example, those that insist on embracing unacceptable thoughts will find that their career choices are quite limited, and there are certain positions that they will be prohibited from ever holding under any circumstances. Not only that, but if your thoughts are offensive enough you may have a financial account suddenly shut down or credit denied for seemingly no reason. This sort of thing was unheard of a decade ago, but now it is happening all the time. Of course you can forget about having any sort of a substantial

social media presence if your thoughts do not conform to current “societal norms”. Even the “free speech platforms” are banning and shadowbanning countless accounts every single day.”

THEY WANT US TO HAVE FEWER BABIES AS THEY THIN THE GLOBAL HERD JANUARY 12, 2023 BY MICHAEL

“Have you noticed that large families are being greatly discouraged these days? Our movies, our television shows, our major news networks and even our textbooks encourage us to put off having children for as long as possible and to have very few kids if we do eventually decide to become parents. Those that choose to rebel against the conditioning and have lots of children are looked down upon and are often ostracized. You see, the truth is that the global elite and their minions do not consider human life to be valuable. Instead, they see us as a giant herd of carbon-emitting bio-machines that needs to be carefully managed...”

2022 GREATEST HITS: THE MOST POPULAR ARTICLES OF THE PAST YEAR AND A LOOK AHEAD

We wish all our readers the best of luck in 2023, with much success in trading and every other avenue of life.

*** * ***

“...And so, before we get into the details of what has now become an annual tradition for the last day of the year, those who wish to jog down memory lane, can refresh our most popular articles for every year during our no longer that brief, almost 11-year existence, starting with [2009](#) and continuing with [2010](#), [2011](#), [2012](#), [2013](#), [2014](#), [2015](#), [2016](#), [2017](#), [2018](#), [2019](#) and [2020](#).

So without further ado, here are the articles that you, our readers, found to be the most engaging, interesting and popular based on the number of hits, during the past year.

- In 20th spot with 600,000 reads, was an article that touched on one of the most defining features of the market: the reflation theme that sparked a massive rally at the start of the year courtesy of the surprise outcome in the Georgia Senate race, where Democrats ended up winning both seats up for grabs, effectively giving the Dems a majority in both the House and the Senate, where despite the even, 50-seat split, Kamala Harris would cast the winning tie-breaker vote to pursue a historic fiscal stimulus. And sure enough, as we described in "[Bitcoin Surges To Record High, Stocks & Bonds Battered As Dems Look Set To Take Both Georgia Senate Seats](#)", with trillions in "stimmy" flooding both the economy and the market, not only did retail traders enjoy unprecedented returns when trading meme "stonks" and forcing short squeezes that crippled numerous hedge funds, but expectations of sharply higher inflation also helped push bitcoin and the entire crypto sector to new all time highs, which in turn legitimized the product across institutional investors and helped it reach a market cap north of \$3 trillion.
- In 19th spot, over 613,000 readers were thrilled to read at the start of September that "[Biden Unveils Most Severe COVID Actions Yet: Mandates Vax For All Federal Workers, Contractors, & Large Private Companies](#)." Of course, just a few weeks later much of Biden's mandate would be struck down in courts, where it is now headed to a decision by SCOTUS, while the constantly shifting "scientific" goal posts mean that just a few months later the latest set of CDC regulations have seen regulators and officials reverse the constant drone of fearmongering and are now even seeking to cut back on the duration of quarantine and other

TOP 10 CONSPIRACY THEORIES THAT WILL BE VALIDATED IN 2023

'Hey bro, you were right about everything. I'm sorry...'

“...With that in mind, here are 10 things that the powers-that-be in D.C. have yet to cop to, but which will soon be impossible to ignore, in no particular order:

- 1. The role that the intel community and the Justice Department played in fomenting violence through psy-ops on Jan. 6, 2021, will be exposed. Sadly, in their expected counter-investigation responding to the Pelosi-run Jan. 6 committee, even House Republicans may withhold state secrets from us. But the FBI's damaging partisan conduct has generated a multitude of whistleblowing defectors who should be willing to shed light on the dubious allegations of right-wing extremism and violence at the [U.S. Capitol](#)—and in the 2017 [Charlottesville](#) riot that was its dress rehearsal.**
- 2. The deadly impact of the COVID vaccines will become undeniable. Initially, I had considered writing about how the GOP House will expose [Anthony Fauci's](#) role in developing the COVID-19 virus, but that already has been scrutinized to death, and without any accountability to back it up, it makes no difference. But there are plenty of other COVID abuses that will keep on yielding new storylines. And none may be greater than the decision by [pharmaceutical companies](#) to suppress therapeutics and overplay the importance of their untested and experimental new vaccines. The evidence is mounting that the vaccines themselves may have been as deadly and damaging as the virus—something to which many life-insurance actuaries may be able to attest. Whether the vaccines do, indeed, have [nanobots](#) that self-assemble and transmit wi-fi, there is a lot of reason to suspect that they are harmful on some level.**
- 3. The scope of China's control over the U.S. government will become clearer. We know about the various financial ties between the [Biden family](#) and the CCP. We know that other top leaders, including [Nancy Pelosi](#) and [Mitch McConnell](#) are heavily invested in Chinese industry. But what we have yet**

to fully explore is the way that China-linked companies like [BlackRock](#) have also completely infiltrated the White House and are effectively writing U.S. foreign policy.

4. The true nature of David DePape's relationship with Paul Pelosi will be revealed. While court hearings have kept a tight lid on the evidence in the [Paul Pelosi](#) assault case, including body-cam footage, it will be harder for Nancy Pelosi to flex her authority after stepping down as House speaker. It is very clear that the assailant, [David DePape](#), is no right-wing extremist and that there is more going on that meets the eye.
5. We will find out what Trump's purloined Mar-a-Lago files really contained. Punting the DOJ probes that resulted in the unprecedented raid on Trump's [Mar-a-Lago resort](#) to corrupt special counsel [Jack Smith](#) was a good way to keep them out of the reach of GOP oversight in the U.S. House. But, eventually, the clock will run out and it will be necessary to explain why, exactly, this norm-violating measure was taken. Odds are it was a CYA operation by the FBI to prevent Trump from exposing the [Russia-hoax](#) documents that he already had publicly declared to be declassified.
6. We will learn what the Democrats intend to do with Joe Biden and who will be tapped to replace him. Will it be [Michelle Obama](#), as I and others have long predicted? Or could they pull out another yet-unknown figure who has been carefully vetted and groomed in secret, like her husband, [Barack](#)? Once the Democrats finally decide that Biden has outlasted his usefulness, their reasons for installing him in the first place may become clear. When Barack Obama was overheard telling a Democrat donor

“Don’t underestimate Joe’s ability to fk things up,” there is a good chance it was a sales pitch more than a warning.**

- 7. We will discover the truth about the U.S.–Ukrainian partnership to research and develop bioweapons. Congress has allocated in excess of \$100 billion to defend *something* in [Ukraine](#), but it sure ain’t democracy. While their personal investments in [Burisma](#)—or in weapons manufacturers like [Raytheon](#)—may be prime motivators, all indications are that the country is a rat’s nest of CIA operations.**
- 8. The Left’s plans to normalize and mainstream pedophilia will come to fruition. The initial push to [sexualize](#) and [groom children](#) in schools and on kid-friendly mediums like [Disney](#) may have fallen flat, but leftists will only redouble their efforts to foist this onto the population because the ability to control and manipulate young minds is pivotal to their long-term plans for control. By acclimating children to sex at an early age, they can add it as another weapon in their quiver, which also includes cultivating ignorance and racial grievances, so that the plebian class is as pliable as possible.**
- 9. The World Economic Forum will lead the way in trying to turn humans into glorified *Matrix*-style batteries. The convergence of [artificial intelligence](#) technology, the [metaverse](#), the decline of office culture, growing clamor about digital [passports](#) and [currencies](#), guaranteed [incomes](#) and an ever-increasing [scarcity of resources](#) suggest that the global plans to collectivize all nations under a one-world government are being gamed out as we speak.**
- 10. As the relationship between Big Tech and the spy agencies becomes clearer, we will learn that our personal devices are tracking our every move. Knowing what we**

know about the interest that the FBI and the CIA have in manipulating technology companies to perform extralegal operations, and what we know about the reprehensible virtue signaling of [Google](#) and [Apple](#), is there really any doubt that they have empowered our intel community to conduct warrantless [domestic surveillance](#) from any device at any time and that our phones are being used to monitor us, in true Big Brother fashion, around the clock?"

Short people don’t just save resources; as resources become scarcer owing to overpopulation and global warming, they may also be best suited for long-term survival.

Jan. 1, 2023

Scientists are telling us that we are in the midst of the worst mass extinction that our planet has seen since the days of the dinosaurs. So why aren’t more people alarmed by this? Have we

become so “dumbed down” that we don’t even have the intellectual capacity to care about our own future any longer? As I discuss [in my latest book](#), plankton are being wiped out at a staggering rate and that means that all of the food chains in our oceans are in peril. Meanwhile, insects are disappearing so rapidly that experts are warning that they may be almost totally gone about a hundred years from now. Of course countless other species are steadily going extinct as well. In fact, a recent study that included “data from 32,000 populations of more than 5,000 species of mammals, birds, amphibians, reptiles and fish” discovered that on average those populations have [“plummeted nearly 70 percent in the last 50 years”](#). Mr Singer revolutionary is just a big globalist phoney who needs to virtue signal in order to generate royalty income. Unlike someone like Jeff Beck who generated royalties based on his musicianship. And based upon his willingness to experiment didn't seem to be bothered about the royalty angle of what he was doing. Mr Depp has freed himself from the Disney pirates. His last movie is probably his best (the globalists hate it and would rather see it buried) and then he suddenly steps into the limelight as a singer with Jeff Beck no less! Listen to this and tell me this is not the real deal!

“Ten years ago, following the Snowden revelations, they hauled Crapper in before a Committee where he lied about spying on Americans, " not wittingly, no", and that was the end of it. We were told the FISA Courts were the saviours of privacy. And that was the end of it too. Just a few years latter, we were enlightened as to just how easy it is for the FBI to manipulate and lie to the FISA Courts in order to illegally spy on a sitting President. Yawn says the MSM. Later we witness the FBI and Justice Department scrounging through a former President's basement looking for declassified documents that amply demonstrate all of the above, including Brandon's complicity thereof as well as other sundry examples of corrupt Ukrainian and Chinese payola.

Now we learn that former "Vice" President Brandon had precisely the same documents sitting in his "Poop Tank." Who will convene a Grand Jury to investigate and indict him? The Chinese Communist Party? They don't need no stinking top secret documents. All they have to do is Google Hunter Biden laptop documents. Now, we are waiting for the RINO Party and Special Prosecutor Rip Van What's His Name to catch up with all this constitutionally appalling excitement. And you know...this sort of thinking is terrorist in nature.

CIA Director Burns: Holy Sh-t, we had these same secret documents over at the Biden "Think" Tank!!!

I like this book. I'm Oprah.

What is unsettling about George Grosz's Weimar images is during that period he was leaning left as were his cohorts in the Berlin DADA movement.

So he depicted that period through the eyes of a leftist artist. What he saw was the earliest manifestations of a fascist leaning society.

In his imagery, you see the rejection of the traditional social fabric of society, runaway street violence, all manner of extreme sexual deviance (reminiscent of Epstein and company), mutilated indigent war veterans, corrupt academics, intimate collaboration between corrupt politicians, militarists and industrialists, the seeds of totalitarianism etc. It all resonates with everything we are seeing now. His grotesque visions of societal chaos now offer clarity. And it is not surprising to me that he does not get his due from woke academia.

Naturally, Grosz figured prominently in what the Nazi Propagandists labelled Degenerate Art and he was forced to flee Europe to save his life.

This whole "twitter file" story is missing a key angle in the discussion, principally because looking at how it happened from this point of view is considered absolutely politically incorrect. But I will point in the direction I am looking and you can all fill in the dots at your leisure. As far as I am concerned, observing the

cultural heritage and experiential background of a character in the plot is not a form of discrimination or bigotry. What one's "*weltenschaung*" includes or excludes, accidentally, intentionally or as a matter of cultural heritage or indifference is fair game in the public sphere.

"I got this moron thing I do. It's called thinking"--George Carlin

Ask yourself who these characters are in terms of background and culture and how such a pack of constitutionally tone deaf woke trusteeologues can wind up running a media something called twitter.

Forget Jack Dorsey: He may have money now thanks to Goldman Sachs, he may want us all to believe he genuinely regrets what happened, then he is a consummate fool for allowing his company to get run over by a woke truth lynch mob. He is a stoner and is definitely mentally wasted. After all he got kicked out of his own company. How often does that happen in Wall Street's Tech Candyland? He gets replaced by something called:

Parag Agarwal, former Twitter CEO: He was born in India and spent his whole life studying things like atomic energy, physics and data science (a giant step for Parag; a stumble for mankind). He wound up getting his PhD at Stanford and then became CTO at twitter. He just loves playing with computers and code. Somehow, a board of directors under the influence of ESG no doubt, winds up appointing this tech Schmendrick to run their company, which is essentially already hijacked by a runaway platoon of woke zombies with the word "Trust" prominently in their titles. The truthy trust lynch mob. "The ESG is with us."

Even though the company he wound up leading became a major commons for public political discourse (the woke half anyway), he is absolutely clueless when it comes to American principles of

constitutional governance and the values that go along with it. And I am very aware that twitter is not a *de jure* government agency. Free speech is indeed a dodgy street curry, I mean conundrum to him. So he winds up leaning on a constitutionally clueless (or abhorring, take your pick) woke J Dingbat named:

Vijaya Gadde: Who is she? She moved to the United States at age 3, and grew up in Beaumont Texas. She wound up getting her law degree from NYU in 2000 and became an associate at Wilson Sonsini, a well known Silicon Valley law firm. She never made partner there. It is easy to see why. She must have some vague degree of familiarity with the American Constitution; after all, you need to know how to spell it in order to pass the bar in Wokifornia and probably everywhere else nowadays.

Unfortunately, on the way to being appointed General Counsel and head of legal, policy and "trust" (ass in trust us, we know what's good for you, LOL!) she comes under the misspell of another well known woke "trust me" dingbat with a law degree named Hillary Clinton---Ass in Dingbat We Trust--who couldn't manage too pass the DC bar, i.e., spell: American Constitution! Neither of those two have any respect for the Constitution nor the ideal of freedom.

This is almost enough to explain everything in the twitter files, including the idea of transforming twitter into a *de facto* FBI piloted instrument of wokey propaganda, but it goes deeper. "Trust me".

She winds up closely partnering with a woke Bay Area gay Jewish homeboy with smiley totalitarian and genuine dingbat with correctumist tendencies named:

Yoel Roth (not that there is anything wrong with that per se <sarc>) who later becomes twitter's "Chief Trust and Safety

Censor", a consummate fanboy of J. Edgar Hooverism, and apparently pedo-boosterism. He and Gadde embark on drunken woke G-Man hiring binge and the rest is twitter history in the making.

Now then, is any of what is being revealed in the "twitter flies, I mean files" a surprise to any of you fellow unwoke deplorable low brow morons? Everything WE ALREADY KNEW two twitter months ago was nothing more than right wing extremist conspiracy theories.

I haven't done the research, but it warms my heart inferring that the employee stock options held by all these former woke trust officers are now all deeply out of the money and leaving them deeply in debt.

A word to the wise: Don't trust anyone or anything with the word "trust" in it's title, including the nickel in your pocket."

I know one thing for certain, those who keep accepting corrupt half-assed bullshit can continue to expect nothing but corrupt half-assed bullshit. Going one step further, if the people on the street allow themselves to be set up for "divide and conquer" by something that looks and smells like an elitist club, then "divide and conquer" is all they can expect in their future.

YAHOO Business People [ELON MUSK OFFICIALLY BREAKS RECORD FOR 'LARGEST LOSS OF PERSONAL FORTUNE IN HISTORY,' SAYS GUINNESS](#)

Grace Kay,Sindhu Sundar

Fri, January 20, 2023 at 3:46 PM PST

Elon Musk was asked about the relationship between his tweets and Tesla's share price during his testimony in a Tesla shareholder trial.Carina Johansen/Getty Images

- **Elon Musk took the stand Friday in a trial over his 2018 tweets about wanting to take Tesla private.**

- **The trial asks jurors to determine whether Musk knowingly led investors astray with his tweets.**
- **Musk testified with characteristic defiance, saying he didn't believe his tweets had market significance.**

Elon Musk briefly took the stand on Friday in a lawsuit that could cost him billions of dollars.

The Tesla CEO testified in a civil trial in San Francisco about his tweets in August 2018, in which he'd claimed he planned to take his car company private with "funding secured."

Musk is expected to continue his testimony on Monday. The shareholders suing him are also planning to call a number of other high-profile witnesses in the trial, including Tesla's former chief financial officer Deepak Ahuja, and Martin Viecha, Tesla's head of investor relations, an attorney for the plaintiffs confirmed to Insider.

Musk has been known for his tendency toward [combative testimony](#) in the past — from cracking jokes to [taking digs](#) at the opposing attorneys.

Here are 8 stand-out quotes from his half-hour testimony:

- **Musk still isn't a fan of [British caver Vernon Unsworth](#), who he once called a "pedo guy": "He was not a diver."**
- **He's hazy on big names asking him to tweet less: On whether he remembers billionaire investor Ron Baron telling him not to use Twitter in July 2018 after his tweets about the Thai cave explorer: "He's not saying don't use Twitter. He's saying I shouldn't respond to criticism in the news on Twitter."**

- **He's dubious his tweets have an impact on Tesla's stock: "Just because I tweet something does not mean people believe it or will act accordingly."**
- **You probably didn't want to work for Tesla from 2017- 2019: "The sheer level of pain required to make Tesla successful in the 2017 through 2019 period was excruciating for me and for many others, I wasn't sleeping in the factory because I wanted to but because I had to."**
- **He made sure the jury knew short-sellers aren't traders who are short in stature: "Yes, I think most people don't know what short seller means. It's sort of - is it sort of a seller of small stature? Is it like medium and tall sellers? I think it's maybe important for ... I'll just explain."**
- **He really, really doesn't like short-sellers: "I believe short selling should be made illegal. It is a means for, in my opinion, bad people on Wall Street to steal money from small investors. Not good."**
- **He says people get how communicating on Twitter works: "Obviously, there is a limit if you've got 240 characters to what you can say. You can obviously be far more verbose in a legal filing and everyone on Twitter understands that."**
- **He'll never get to Inbox Zero: "I actually have like the Niagara Falls of email. So it's really difficult to remember every email."**

MSNBC ELON MUSK'S TWITTER IS EXACTLY WHAT HE SAID IT WOULDN'T BE

“By the next day, Musk’s tweets weren’t just more visible; they were *flooding everybody’s feeds.*”

“..But he’s not. Instead, he regularly tweets memes that seem funny mostly to 12-year-old boys, and talks up his other companies, like SpaceX and Tesla. This suggests that Musk is indulging in attention-seeking behavior and is exploiting his ownership of the company to create buzz and enhance profit for his other ventures. Musk’s ultra-boosted tweets represent a clear conflict of interest: If he wants to facilitate Twitter as a digital public square, he can’t also structure it around a personal desire for psychological affirmation and maximizing personal profit.

Musk also appears to be behaving tyrannically as a manager. We can’t be sure that Musk reportedly firing someone after they said something he may have found bruising is the reason they were let go. But that possibility is certainly *plausible* given previous reporting indicating Musk has fired people because they

[criticized](#) him, and has used threats to fire people en masse [unless they declared allegiance](#) to his unilateral vision. (Musk has laid off or fired [around 80% of Twitter's staff](#).) This matters because it means Musk is more likely to surround himself with yes-men willing to indulge his self-serving and ad hoc policies..”

So a 'road' is anything that connects two points, while 'streets' are public ways which have buildings on either side. Avenues, meanwhile, have the same attributes as streets but run perpendicular to them, while a boulevard is essentially a wide street (or avenue), with a median through the middle.

WHO'S WHO:

Millennials are anyone born from 1981 to 1996. Generation Z is anyone born from 1997 to 2012. Gen Alpha is the generation following Gen Z and currently includes all children born in or after 2010—the same year the iPad was born. The majority of this demographic is under 12 years of age, but the oldest of them will become teens in 2022. Is Gen Alpha the smartest? Generation Alpha is considered to be the most technological-infused demographic up-to-date. Alphas seem to know and understand complex ideas and able to do things that are well beyond their age.

Jane Fonda is worried about a new Barbarella starring Sydney Sweeney - Sydney Sweeney is trading Euphoria for fatal sexual pleasure — and Jane Fonda has some thoughts. In October, EW confirmed that Sweeney is partnering with Sony Pictures for a new Barbarella film. Fonda originally starred as the titular space babe in a 1968 film from then-husband director Roger Vadim based on the French comic-book series of the same name.

Tom Brady Retires From NFL 'For Good'

THE LADIES OF "80 FOR BRADY" ARE HOT FOR THEIR LEADING MAN, TOM BRADY.

In an interview with AARP, actresses Jane Fonda, Rita Moreno, Lily Tomlin, and Sally Field gushed over their love for the NFL's most talked-about impending free-agent.

"He's at the top of his game and the best in his field, and beyond that, he's gorgeous, kind and sweet," Fonda said of Brady, 45.

"Your jaw drops at the skill level," Field noted of the seven-time Super Bowl Champion.

NFL quarterback Tom Brady has caught the eye of his "80 for Brady" co-stars.

Moreno echoed Field's statements, saying, "Oh, he's remarkable in his work, just remarkable."

On the other hand, Tomlin's affinity for Brady was more motherly.

A PIECE of moon rock given to an overseas politician by the United States is actually a lump of petrified wood, museum authorities revealed yesterday. The matchbox-sized exhibit (pictured) was originally given to Dutch prime minister Willem Drees in 1969 by then-US ambassador William Middendorf as a souvenir of the Apollo 11 moon landing. The Rijksmuseum in Amsterdam received the rock upon Drees's death in 1988.

"It's a ... pretty-much-worthless stone," said Frank Beunk, a geologist involved in the investigation.

Al Peia

The joke's on america (they do it for the money and propaganda). Non-filtered report I read said Russians denied it happened (beyond film fake). That they've not been back, deep-sixed their saturn rockets, and no moon base strongly argues the factual reality: FAKE! Another article said Kubrick was approached but turned them down; while another said he was handsomely paid for the fake.

In The Shining, Kubrick changed the infamous room number to 237. The average distance from the Moon to Earth is approximately 237.000km. We see Danny wear an Apollo 11 sweater, and the carpet pattern looks like a rocket launch pad. (Hmmm...)

YAHOO/donald trump says: “...We are living in a VERY CORRUPT COUNTRY AND, AS THEY ARE SAYING ALL OVER THE INTERNET, “NOTHING WILL BE DONE ABOUT IT BECAUSE [JOE BIDEN’S]JUSTICE DEPARTMENT AND FBI ARE TOTALLY CORRUPT...” <https://albertpeia.com/peia-v-united-states-et-al.jpg> **[WOW! TRUMP, PART OF THE PROBLEM HIMSELF, SHOULD KNOW; INDEED, THAT IS THE TRUTH!]**

Absolutely PATHETIC!

rittenhouse is an ignorant, sick piece of shit who doesn’t know anything!

Friend,

The corrupt Biden Crime Family is compromised!

Even the liberal, fake news *New York Times* can't hide this one...

It's now being reported that the Biden Administration KNEW about the Chinese spy balloon for a WEEK before it entered U.S. airspace. *In fact, they knew the minute it took off.*

And yet, Beijing Biden allowed that balloon from hell to fly over YOUR home to spy on YOU.

Why? Because he's bought and paid for by the Chinese Communist Party. Plain and simple.

But we all know the TRUTH – the Chinese would never have dared send that balloon into our airspace if Donald J. Trump was president.

There's only one way to END this madness and MAKE AMERICA STRONG AGAIN: *by helping President Trump win back the White House!*

Which is why for the next 30 minutes, ANY patriot who contributes \$47 or more to help President Trump FIRE Biden

will be sent their very own Beijing Biden T-shirt for FREE.

Please make a contribution of \$47 or more right now to FIRE Joe Biden and claim your FREE Beijing Biden T-shirt.

First, I'm not your friend.

Second, I don't doubt biden et als are corrupt and compromised; they're americans like you, after all.

Third, I KNOW you're corrupt, compromised, and a typical new york/new jersey/american mobster.

post script: REMEMBER THIS - <https://albertpeia.com/peia-v-united-states-et-al.jpg>

FORMER WHITE HOUSE DOCTOR: BIDEN'S MEDICAL WAS A "COVER UP"

“Biden’s ability to think and reason is GONE!”

RITTENHOUSE IS AN IGNORANT, SICK PIECE OF SHIT WHO DOESN’T KNOW ANYTHING!

AMERICA IS PREDOMINANTLY A NATION OF CRIMINALS AND MENTALLY ILL PEOPLE (AN EVOLUTIONARY DISASTER).
