You see, the truth is that Ukraine has been one of the New World Order’s pet projects. In 2014, they were able to successfully overthrow the democratically-elected government of Ukraine and install a completely fresh pro-globalist government. The Cold War doctrine of “mutually assured destruction” has been pounded into our heads so many times that most people simply assume that it would be unthinkable for either side to attempt a nuclear strike. That may have been true in the 1980s, but things have changed dramatically since that time. **<http://endoftheamericandream.com/11-signs-u-s-relations-with-china-are-deteriorating-and-that-an-invasion-of-taiwan-is-drawing-near/>** This is an

article that I have been wanting to write for a while, because China is going to be such a central player in the global drama that is going to play out over the next few years. Since Joe Biden entered the White House, the deterioration of Chinese relations with the United States has accelerated. Meanwhile, Chinese relations with Russia have tightened, and that should deeply alarm all of us. Because now that war has started, many are deeply concerned that the U.S. could eventually find itself in a direct conflict with a Russian-Chinese alliance. **March 13, 2022** by **Michael Snyder**

But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. ### **What Would A Global Nuclear Conflict Look Like?**

**<http://endoftheamericandream.com/what-would-a-global-nuclear-conflict-look-like/>** I simply do not understand why so many on the left and so many on the right seem determined to push us into a military conflict with Russia. If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

**UNITED STATES of America, et al., Defendants.**

**“...The facts are taken as alleged in the complaint<sup>[1]</sup>. Plaintiff alleges a broad-ranging conspiracy involving the United States of America, the U.S. Bankruptcy Courts, various U.S. District Court Judges, various U.S. Bankruptcy Trustees, the U.S. Attorney's Office, Donald Trump, the FBI, and fifteen John Doe defendants...” “...In 1987, Plaintiff commenced an action alleging civil RICO violations in the U.S. District Court for the District of New Jersey to recover money owed to him by a Mr. Dilena. The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989...”**

## **What Would A Global Nuclear Conflict Look Like?**

**<http://endoftheamericandream.com/what-would-a-global-nuclear-conflict-look-like/>** I simply do not understand why so many on the left and so many on the right seem determined to push us into a military conflict with Russia. If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

**UNITED STATES of America, et al., Defendants.**

**“...The facts are taken as alleged in the complaint<sup>[1]</sup>. Plaintiff alleges a broad-ranging conspiracy involving the United States of America, the U.S. Bankruptcy Courts, various U.S. District Court Judges, various U.S. Bankruptcy Trustees, the U.S. Attorney's Office, Donald Trump, the FBI, and fifteen John Doe defendants...” “...In 1987, Plaintiff commenced an action alleging civil RICO violations in the U.S. District Court for the District of New Jersey to recover money owed to him by a Mr. Dilena. The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989...”**

### **What Would A Global Nuclear Conflict Look Like?**

**<http://endoftheamericandream.com/what-would-a-global-nuclear-conflict-look-like/>** I simply do not understand why so many on the left and so many on the right seem determined to push us into a military conflict with Russia. If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

## **What Would A Global Nuclear Conflict Look Like?**

**<http://endoftheamericandream.com/what-would-a-global-nuclear-conflict-look-like/>** I simply do not understand why so many on the left and so many on the right seem determined to push us into a military conflict with Russia. If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989...”**

Eric Holder spent six years as attorney general, and failed to prosecute banks for their criminal wrongdoing or put any bank executives behind bars. Now, he's set to rejoin his old white-collar criminal defense firm, making millions each year helping Wall Street bankers avoid criminal consequences. Worse, it was just reported that the firm, Covington & Burling, has kept an empty 11th floor corner office for Holder awaiting his return. Combined with Holder's purchase a year ago of a \$1.5 million condo just 300 feet from his new office raises serious questions about how long Holder knew he would be getting a major payday from his old firm even while it continued to represent companies under Department of Justice investigation. If the firm and Holder agreed on a future job offer, that alone could violate criminal laws. ..."]*** [\*\*NY Times Finds Obama's "Most Precise Air Campaign In History" Killed Thousands Of Civilians\*\*](#) Previously hidden Pentagon documents show thousands of civilian deaths in Iraq & Syria, including children.

Plaintiff alleges a broad-ranging conspiracy involving the United States of America, the U.S. Bankruptcy Courts, various U.S. District Court Judges, various U.S. Bankruptcy Trustees, the U.S. Attorney's Office, Donald Trump, the FBI, and fifteen John Doe defendants...” “...In 1987, Plaintiff commenced an action alleging civil RICO violations in the U.S. District Court for the District of New Jersey to recover money owed to him by a Mr. Dilena. The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989...”**

**<http://endoftheamericandream.com/what-would-a-global-nuclear-conflict-look-like/>** I simply do not understand why so many on the left and so many on the right seem determined to push us into a military conflict with Russia. If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989...”**

The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989...”**

## **What Would A Global Nuclear Conflict Look Like?**

**<http://endoftheamericandream.com/what-would-a-global-nuclear-conflict-look-like/>** I simply do not understand why so many on the left and so many on the right seem determined to push us into a military conflict with Russia. If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989..."**

But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust**

of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989..."

**(e) No justice, judge, or magistrate judge shall accept from the parties to the proceeding a waiver of any ground for disqualification enumerated in subsection (b). Where the ground for disqualification arises only under subsection (a), waiver may be accepted provided it is preceded by a full disclosure on the record of the basis for disqualification.**

**(f) Notwithstanding the preceding provisions of this section, if any justice, judge, magistrate judge, or bankruptcy judge to whom a matter has been assigned would be disqualified, after substantial judicial time has been devoted to the matter, because of the appearance or discovery, after the matter was assigned to him or her, that he or she individually or as a fiduciary, or his or her spouse or minor child residing in his or her household, has a financial interest in a party (other than an interest that could be substantially affected by the outcome), disqualification is not required if the justice, judge, magistrate judge, bankruptcy judge, spouse or minor child, as the case may be, divests himself or herself of the interest that provides the grounds for the disqualification.**

But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because**

she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989..."

**(f) Notwithstanding the preceding provisions of this section, if any justice, judge, magistrate judge, or bankruptcy judge to whom a matter has been assigned would be disqualified, after substantial judicial time has been devoted to the matter, because of the appearance or discovery, after the matter was assigned to him or her, that he or she individually or as a fiduciary, or his or her spouse or minor child residing in his or her household, has a financial interest in a party (other than an interest that could be substantially affected by the outcome), disqualification is not required if the justice, judge, magistrate judge, bankruptcy judge, spouse or minor child, as the case may be, divests himself or herself of the interest that provides the grounds for the disqualification.**

**<http://endoftheamericandream.com/what-would-a-global-nuclear-conflict-look-like/>** I simply do not understand why so many on the left and so many on the right seem determined to push us into a military conflict with Russia. If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

**UNITED STATES of America, et al., Defendants.**

**“...The facts are taken as alleged in the complaint<sup>[1]</sup>. Plaintiff alleges a broad-ranging conspiracy involving the United States of America, the U.S. Bankruptcy Courts, various U.S. District Court Judges, various U.S. Bankruptcy Trustees, the U.S. Attorney's Office, Donald Trump, the FBI, and fifteen John Doe defendants...” “...In 1987, Plaintiff commenced an action alleging civil RICO violations in the U.S. District Court for the District of New Jersey to recover money owed to him by a Mr. Dilena. The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989...”**

## **What Would A Global Nuclear Conflict Look Like?**

**<http://endoftheamericandream.com/what-would-a-global-nuclear-conflict-look-like/>** I simply do not understand why so many on the left and so many on the right seem determined to push us into a military conflict with Russia. If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. **Lawrence Paul Anderson, 42, confessed to breaking into 41-year-old Andrea Lynn Blankenship’s home in Chickasha, Oklahoma, on Feb. 12 by breaking down her back door with his shoulder. He then allegedly confessed to killing her and cutting out her heart, taking it across the street to his aunt and uncle’s home and sauteing it with potatoes. He then tried to force them to eat it to “release the demons” before he fatally attacked his uncle and nearly killed his aunt. Worse, it was just reported that the firm, Covington & Burling, has kept an empty 11th floor corner office for Holder awaiting his return. Combined with Holder's purchase a year ago of a \$1.5 million condo just 300 feet from his new office raises serious questions about how long Holder knew he would be getting a major payday from his old firm even while it continued to represent companies under Department of Justice investigation. The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989..."**

**<http://endoftheamericandream.com/what-would-a-global-nuclear-conflict-look-like/>** I simply do not understand why so many on the left and so many on the right seem determined to push us into a military conflict with Russia. If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989...”**

If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989...”**

### **What Would A Global Nuclear Conflict Look Like?**

**<http://endoftheamericandream.com/what-would-a-global-nuclear-conflict-look-like/>** I simply do not understand why so many on the left and so many on the right seem determined to push us into a military conflict with Russia. If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

[To be fair and balanced, there's also the bush/cheney/paulsen axis of evildoing/war crimes/fraud in the factum, etc.] "It's the revolving door at its most despicable. Eric Holder spent six years as attorney general, and failed to prosecute banks for their criminal wrongdoing or put any bank executives behind bars. Now, he's set to rejoin his old white-collar criminal defense firm, making millions each year helping Wall Street bankers avoid criminal consequences. Worse, it was just reported that the firm, Covington & Burling, has kept an empty 11th floor corner office for Holder awaiting his return. Combined with Holder's purchase a year ago of a \$1.5 million condo just 300 feet from his new office raises serious questions about how long Holder knew he would be getting a major payday from his old firm even while it continued to represent companies under Department of Justice investigation. **UNITED STATES of America, et al., Defendants.**

**“...The facts are taken as alleged in the complaint<sup>[1]</sup>. Plaintiff alleges a broad-ranging conspiracy involving the United States of America, the U.S. Bankruptcy Courts, various U.S. District Court Judges, various U.S. Bankruptcy Trustees, the U.S. Attorney's Office, Donald Trump, the FBI, and fifteen John Doe defendants...” “...In 1987, Plaintiff commenced an action alleging civil RICO violations in the U.S. District Court for the District of New Jersey to recover money owed to him by a Mr. Dilena. The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his**

documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989..."

## **What Would A Global Nuclear Conflict Look Like?**

**<http://endoftheamericandream.com/what-would-a-global-nuclear-conflict-look-like/>** I simply do not understand why so many on the left and so many on the right seem determined to push us into a military conflict with Russia. If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

**Lawrence Paul Anderson, 42, confessed to breaking into 41-year-old Andrea Lynn Blankenship's home in Chickasha, Oklahoma, on Feb. 12 by breaking down her back door with his shoulder. He then allegedly confessed to killing her and cutting out her heart, taking it across the street to his aunt and uncle's home and sauteing it with potatoes. He then tried to force them to eat it to "release the demons" before he fatally attacked his uncle and nearly killed his aunt. **UNITED STATES of America, et al., Defendants.**

**“...The facts are taken as alleged in the complaint<sup>[1]</sup>. Plaintiff alleges a broad-ranging conspiracy involving the United States of America, the U.S. Bankruptcy Courts, various U.S. District Court Judges, various U.S. Bankruptcy Trustees, the U.S. Attorney's Office, Donald Trump, the FBI, and fifteen John Doe defendants...” “...In 1987, Plaintiff commenced an action alleging civil RICO violations in the U.S. District Court for the District of New Jersey to recover money owed to him by a Mr. Dilena. The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989...”**

### **What Would A Global Nuclear Conflict Look Like?**

**<http://endoftheamericandream.com/what-would-a-global-nuclear-conflict-look-like/>** I simply do not understand why so many on the left and so many on the right seem determined to push us into a military conflict with Russia. If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

**<http://endoftheamericandream.com/what-would-a-global-nuclear-conflict-look-like/>** I simply do not understand why so many on the left and so many on the right seem determined to push us into a military conflict with Russia. If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

Albert L. PEIA, Plaintiff,

v.

UNITED STATES of America, et al., Defendants.

“...The facts are taken as alleged in the complaint<sup>[1]</sup>. Plaintiff alleges a broad-ranging conspiracy involving the United States of America, the U.S. Bankruptcy Courts, various U.S. District Court Judges, various U.S. Bankruptcy Trustees, the U.S. Attorney's Office, Donald Trump, the FBI, and fifteen John Doe defendants...” “...In 1987, Plaintiff commenced an action alleging civil RICO violations in the U.S. District Court for the District of New Jersey to recover money owed to him by a Mr. Dilena. The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through

the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989..."

## **28 U.S. CODE § 455 - DISQUALIFICATION OF JUSTICE, JUDGE, OR MAGISTRATE JUDGE**

**(a) Any justice, judge, or magistrate judge of the United States shall disqualify himself in any proceeding in which his impartiality might reasonably be questioned.**

**(b) He shall also disqualify himself in the following circumstances:**

**(1) Where he has a personal bias or prejudice concerning a party, or personal knowledge of disputed evidentiary facts concerning the proceeding;**

**(2) Where in private practice he served as lawyer in the matter in controversy, or a lawyer with whom he previously practiced law served during such association as a lawyer concerning the matter, or the judge or such lawyer has been a material witness concerning it;**

**(3) Where he has served in governmental employment and in such capacity participated as counsel, adviser or material witness concerning the proceeding or expressed an opinion concerning the merits of the particular case in controversy;**

**(4) He knows that he, individually or as a fiduciary, or his spouse or minor child residing in his household, has a financial interest in the subject matter in controversy or in a party to the proceeding, or any other interest that could be substantially affected by the outcome of the proceeding;**

**(5) He or his spouse, or a person within the third degree of relationship to either of them, or the spouse of such a person:**

**(i) Is a party to the proceeding, or an officer, director, or trustee of a party;**

**(ii) Is acting as a lawyer in the proceeding;**

**(iii) Is known by the judge to have an interest that could be substantially affected by the outcome of the proceeding;**

**(iv) Is to the judge's knowledge likely to be a material witness in the proceeding.**

**(c) A judge should inform himself about his personal and fiduciary financial interests, and make a reasonable effort to inform himself about the personal financial interests of his spouse and minor children residing in his household.**

**(2) the degree of relationship is calculated according to the civil law system;**

**(3) "fiduciary" includes such relationships as executor, administrator, trustee, and guardian;**

**(4) “financial interest” means ownership of a legal or equitable interest, however small, or a relationship as director, adviser, or other active participant in the affairs of a party, except that:**

**(i) Ownership in a mutual or common investment fund that holds securities is not a “financial interest” in such securities unless the judge participates in the management of the fund;**

**(ii) An office in an educational, religious, charitable, fraternal, or civic organization is not a “financial interest” in securities held by the organization;**

**(iii) The proprietary interest of a policyholder in a mutual insurance company, of a depositor in a mutual savings association, or a similar proprietary interest, is a “financial interest” in the organization only if the outcome of the proceeding could substantially affect the value of the interest;**

**(iv) Ownership of government securities is a “financial interest” in the issuer only if the outcome of the proceeding could substantially affect the value of the securities.**

**(e) No justice, judge, or magistrate judge shall accept from the parties to the proceeding a waiver of any ground for disqualification enumerated in subsection (b). Where the ground for disqualification arises only under subsection (a), waiver may be accepted provided it is preceded by a full disclosure on the record of the basis for disqualification.**

**(f) Notwithstanding the preceding provisions of this section, if any justice, judge, magistrate judge, or bankruptcy judge to whom a matter has been assigned would be disqualified, after substantial judicial time has been devoted to the matter, because of the appearance or discovery, after the matter was assigned to him or her, that he or she individually or as a fiduciary, or his or her spouse or minor child residing in his or her household, has a financial interest in a party (other than an interest that could be substantially affected by the outcome), disqualification is not required if the justice, judge, magistrate judge, bankruptcy judge, spouse or minor child, as the case may be, divests himself or herself of the interest that provides the grounds for the disqualification.**

### **What Would A Global Nuclear Conflict Look Like?**

**<http://endoftheamericandream.com/what-would-a-global-nuclear-conflict-look-like/>** I simply do not understand why so many on the left and so many on the right seem determined to push us into a military conflict with Russia. If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

"...In 1987, Plaintiff commenced an action alleging civil RICO violations in the U.S. District Court for the District of New Jersey to recover money owed to him by a Mr. Dilena. The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could

**not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989..."**

Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989...”**

## **28 U.S. CODE § 455 - DISQUALIFICATION OF JUSTICE, JUDGE, OR MAGISTRATE JUDGE**

**(a) Any justice, judge, or magistrate judge of the United States shall disqualify himself in any proceeding in which his impartiality might reasonably be questioned.**

**(b) He shall also disqualify himself in the following circumstances:**

**(1) Where he has a personal bias or prejudice concerning a party, or personal knowledge of disputed evidentiary facts concerning the proceeding;**

**(2) Where in private practice he served as lawyer in the matter in controversy, or a lawyer with whom he previously practiced law served during such association as a lawyer concerning the matter, or the judge or such lawyer has been a material witness concerning it;**

**(3) Where he has served in governmental employment and in such capacity participated as counsel, adviser or material witness concerning the proceeding or expressed an opinion concerning the merits of the particular case in controversy;**

**(4) He knows that he, individually or as a fiduciary, or his spouse or minor child residing in his household, has a financial interest in the subject matter in controversy or in a party to the proceeding, or any other interest that could be substantially affected by the outcome of the proceeding;**

**(5) He or his spouse, or a person within the third degree of relationship to either of them, or the spouse of such a person:**

**(i) Is a party to the proceeding, or an officer, director, or trustee of a party;**

**(ii) Is acting as a lawyer in the proceeding;**

**(iii) Is known by the judge to have an interest that could be substantially affected by the outcome of the proceeding;**

**(iv) Is to the judge's knowledge likely to be a material witness in the proceeding.**

**(c) A judge should inform himself about his personal and fiduciary financial interests, and make a reasonable effort to inform himself about the personal financial interests of his spouse and minor children residing in his household.**

**(d) For the purposes of this section the following words or phrases shall have the meaning indicated:**

**(2) the degree of relationship is calculated according to the civil law system;**

**(3) “fiduciary” includes such relationships as executor, administrator, trustee, and guardian;**

**(4) “financial interest” means ownership of a legal or equitable interest, however small, or a relationship as director, adviser, or other active participant in the affairs of a party, except that:**

**(i) Ownership in a mutual or common investment fund that holds securities is not a “financial interest” in such securities unless the judge participates in the management of the fund;**

**(ii) An office in an educational, religious, charitable, fraternal, or civic organization is not a “financial interest” in securities held by the organization;**

**(iii) The proprietary interest of a policyholder in a mutual insurance company, of a depositor in a mutual savings association, or a similar proprietary interest, is a “financial interest” in the organization only if the outcome of the proceeding could substantially affect the value of the interest;**

**(iv) Ownership of government securities is a “financial interest” in the issuer only if the outcome of the proceeding could substantially affect the value of the securities.**

**(e) No justice, judge, or magistrate judge shall accept from the parties to the proceeding a waiver of any ground for disqualification enumerated in subsection (b). Where the ground for disqualification arises only under**

**subsection (a), waiver may be accepted provided it is preceded by a full disclosure on the record of the basis for disqualification.**

**(f) Notwithstanding the preceding provisions of this section, if any justice, judge, magistrate judge, or bankruptcy judge to whom a matter has been assigned would be disqualified, after substantial judicial time has been devoted to the matter, because of the appearance or discovery, after the matter was assigned to him or her, that he or she individually or as a fiduciary, or his or her spouse or minor child residing in his or her household, has a financial interest in a party (other than an interest that could be substantially affected by the outcome), disqualification is not required if the justice, judge, magistrate judge, bankruptcy judge, spouse or minor child, as the case may be, divests himself or herself of the interest that provides the grounds for the disqualification.**

**“If you watch the corporate media, you'll often hear the word 'oligarch' preceded by the word 'Russian.' But oligarchs aren't uniquely a Russian phenomenon or a foreign concept. No. The United States has its own oligarchy.**

**Today, in the United States, the two wealthiest people own more wealth than the bottom 42 percent of our population – more than 130 million Americans. And the top one percent now owns more wealth than the bottom 92 percent. During the last 50 years there has been a massive transfer of wealth in our country, but it's going in the wrong direction. The middle class is shrinking while the people on top are doing better than ever.**

**Further, in terms of the global economy, there is no question that we are**

**seeing a huge and destructive increase in income and wealth inequality. While the very, very richest people become much wealthier, ordinary people struggle and the most desperate starve.**

**While massive levels of inequality existed before the rise of COVID, that situation has become much worse over the past two years.**

**Today, around the world, the wealthiest 10 multi-billionaires now own more wealth than the bottom 3.1 billion – almost 40 percent of the world's population. Unbelievably, the wealth of these ten multi-billionaires has doubled during the pandemic, while the income of 99 percent of the world's population has declined. The oligarchs spend huge amounts of money buying fancy yachts, mansions and great paintings while 160 million people throughout the world have slipped into poverty. According to Oxfam, global income and wealth inequality has led to the deaths of more than 21,000 people each and every day throughout the world as a result of hunger and the lack of access to healthcare. Yet the world's 2,755 billionaires saw their wealth go up by \$5 trillion since March 2021 – increasing from \$8.6 trillion to \$13.8 trillion.**

**But it's not just the increased income and wealth gap between the very rich and everyone else. It's a growing concentration of ownership and brute economic and political power. Something which is not talked about much, either in the media or political circles, is the reality that a handful of Wall Street firms, Black Rock, Vanguard and State Street, now control over \$21 trillion in assets – roughly the GDP of the United States. This gives a tiny number of CEOs enormous power over hundreds of companies and the lives of millions of workers. The result: in recent years we have seen the ultra-wealthy significantly increase their influence over media, banking, health care, housing and many other parts**

**of our economy. In fact, never before have so few owned and controlled so much.**

**Add it all together and what you see is a nation and world trending very strongly toward oligarchy – where a small number of multi-billionaires exercise enormous economic and political power.**

**So, in the midst of all of this, where do we go from here?**

**Clearly, while we face oligarchy, COVID, attacks on democracy, climate change, the horrific war in Ukraine and other challenges it is easy to understand why many may fall into cynicism and hopelessness. This is a state of mind, however, that we must overcome – not only for ourselves, but for our kids and future generations. The stakes are just too high, and despair is not an option. We must come together and fight back.....”**

The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989...”**

**<http://endoftheamericandream.com/what-would-a-global-nuclear-conflict-look-like/>** I simply do not understand why so many on the left and so many on the right seem determined to push us into a military conflict with Russia. If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

**"Prosecutors have been sending back documents to people who turned over information about former President Donald Trump's business, in perhaps the starkest sign yet that the Manhattan District Attorney's investigation into Trump may be winding down.**

**According to two people familiar with the situation, witnesses who had turned over key documents to investigators have suddenly been getting**

**their evidence back in recent weeks.**

**Returning evidence is often a sign that an investigation is concluding, and the news comes one day after The New York Times published a leaked copy of a resignation letter from a top prosecutor who quit out of frustration that the new head of the office, District Attorney Alvin Leonard Bragg Jr., seems disinclined to criminally charge Trump.**

### **Top Prosecutors Leading Manhattan DA's Trump Probe Resign**

**In his resignation letter in February, seasoned prosecutor Mark Pomerantz wrote that Trump had lied on numerous financial statements and “committed crimes,” but he also said Bragg had “reached the decision not to go forward with the grand jury presentation and not to seek criminal charges at the present time.” In response to questions Thursday, the DA’s office sent The Daily Beast a statement it had already released this week: “The investigation continues. A team of experienced prosecutors is working every day to follow the facts and the law. There is nothing we can or should say at this juncture about an ongoing investigation.” The DA’s criminal investigation centers on alleged financial crimes at the former president’s corporate real-estate empire, the Trump Organization. It is the longest running, publicly known law enforcement effort against the former president and his family business. The previous district attorney, Cy Vance Jr., started the investigation and indicted the Trump Organization’s chief financial officer in July. Vance, however, quit before the case went to trial, and he was replaced by Bragg in January. But now that Vance is gone, this historic undertaking—targeting a former U.S. president for the first time in the nation’s history—appears to be hitting a roadblock. It’s been eight months since a grand jury indicted the company and then-CFO Allen Weisselberg. And yet the high-ranking executive hasn’t shown any signs of flipping on his boss. Turning him into a state’s witness would be key, given that the tax fraud investigation is proceeding akin to a mob takedown—with Trump at the top. Potential criminal charges—with similar allegations of receiving fringe company benefits—never actually materialized against chief operating officer Matthew Calamari Sr. His defense attorney, Nicholas Gravante, has previously stated that he received indications that his client would not be indicted. With movement on the case seeming to come to a halt, the two top prosecutors leading the team abruptly quit last month, with both citing the investigation in their resignation letters.**

**Pomerantz, a former federal prosecutor, had come out of retirement to assist with the investigation. Carey Dunne, the office's general counsel, was the one who successfully argued before the Supreme Court that the Manhattan DA's Office should be able to seize Trump's personal taxes—which remain locked away from the public. In losing them, the office lost two investigators who remained laser focused on the alleged crimes committed by Trump himself, multiple sources told The Daily Beast. "Part of reforming our criminal legal system means holding accountable those who too often get a pass," Eliza Orlins, a public defender who ran for Manhattan DA last year, said on Thursday. "But it's business as usual at the Manhattan DA's office—failure to hold the powerful to account while preying on the most vulnerable New Yorkers." For weeks, lawyers for Trump, his family, and his hereditary business have been utterly convinced the Manhattan DA would not bring criminal charges against the ex-president. According to two sources with knowledge of the matter, the leak of the resignation letter this week caused some gloating and borderline elation among Trump attorneys, who viewed the leak as further evidence that criminal charges against Trump wouldn't be dropping. "There was some high-fiving," one of the sources bluntly said. Conversely, Bragg's decision to not indict Trump at the moment—detailed in Pomerantz's letter—has left several witnesses who helped in the investigation feeling used and disillusioned. Jennifer Weisselberg, the ex-wife of the CFO's son, became a witness in the investigation when prosecutors compelled her to speak to investigators. She has publicly detailed how Trump himself signed the checks that prosecutors cited in their indictment as untaxed corporate benefits to her family that skirted the law. After emptying a retirement account to pay for lawyers to guide her through this legal process and a custody battle, she said the decision to not pursue criminal charges against Trump "lessens my credibility by saying that there really isn't a case there." "When you stand up and speak the truth against really scary people by yourself... I chose to be brave, and it seems like it was all in vain," she said. "I feel like it's an injustice to me." "**

**<http://endoftheamericandream.com/most-americans-dont-know-about-the-new-nuclear-weapons-russia-has-developed-since-the-end-of-the-cold-war/>**

Even though war has erupted in Ukraine, most Americans still do not believe that a nuclear war with Russia is a serious threat. The Cold War doctrine of "mutually assured destruction" has been pounded into our heads so many times that most people simply assume that it would be unthinkable for either side to attempt a nuclear strike. That may have been true in the 1980s, but things have changed dramatically since that time. The Russians have developed some extremely impressive weapons and anti-missile systems since the end of the Cold War, but most Americans don't even know that they exist **March 14, 2022** by **Michael Snyder**

This is an article that I have been wanting to write for a while, because China is going to be such a central player in the global drama that is going to play out over the next few years. Since Joe Biden entered the White House, the deterioration of Chinese relations with the United States has accelerated. Meanwhile, Chinese relations with Russia have tightened, and that should deeply alarm all of us. Because now that war has started, many are deeply concerned that the U.S. could eventually find itself in a direct conflict with a Russian-Chinese alliance. **March 13, 2022** by **Michael Snyder**

**FORTUNE International****Russia Besides Koch Industries, Halliburton and Subway, which companies are still operating in Russia? More than you might think**

**By Erin Prater March 17, 2022**

<https://fortune.com/2022/03/17/besides-koch-industries-halliburton-and-subway-which-companies-are-still-operating-in-russia-more-than-you-might-think/>

**"Among those operating undeterred: Authentic Brands' Reebok, Halliburton, Koch Industries, LG Electronics, and Subway, which has nearly 450 franchised locations in Russia.**

**The list, launched several days after Russia's invasion of Ukraine, is "updated continuously" by Jeffrey Sonnenfeld, senior associate dean for leadership studies at the Yale School of Management, and his research team in a bid to "reflect new announcements from companies in as close to real time as possible."**

**On Thursday, Bloomberg reported that Kansas-based Koch Industries "will continue to operate its two glass manufacturing facilities in Russia," citing a Wednesday statement from Koch President and COO Dave Robertson that acknowledged the decision, affecting about 600 Guardian Industries employees.**

**"We have no other physical assets in Russia, and outside of Guardian, employ 15 individuals in the country," Robertson wrote. "While Guardian's business in Russia is a very small part of Koch, we will not walk away from our employees there or hand over these manufacturing facilities to the Russian government so it can operate and benefit from them (which is what The Wall Street Journal has reported they would do)."**

**"Doing so would only put our employees there at greater risk and do more harm than good."**

**Since the initial publication of the list during the week of Feb. 28, Sonnenfeld and fellow researchers have revised their categorization method. In a March 16 article for Fortune, Sonnenfeld acknowledged that the initial "naughty and nice list ... smoothed over some of the complexities related to these companies' exits from Russia."**

**The revised list includes four categories: "withdrawing all business," "suspending operations," "reducing activities," and "economic collaboration."**

**There is no excuse for companies in the fourth, last, category, Sonnenfeld wrote for Fortune, which fell from 34 businesses Wednesday to 27 Thursday.**

**"Worst of all are the companies in category #4 that continue in Russia unabated," he wrote. "Oil servicers such as Halliburton and Schlumberger remain economic collaborators despite U.S. sanction. I met Jean Riboud, the legendary former Schlumberger CEO who over several decades built Schlumberger into being the largest in the industry, a company that under his leadership was considered the best managed firm in the world. A Buchenwald Holocaust survivor and fighter in the resistance against the Nazis, Riboud, who died in 1985, would not recognize his firm today.**

**Those 27 companies "defying demands for exit or reduction of activities," as of Thursday, per Sonnenfeld's list:**

**American Airlines**

**11 Ways That Western Powers Are Escalating The End Times War In Ukraine** <http://endoftheamericandream.com/11-ways-that-western-powers-are-escalating-the-end-times-war-in-ukraine/> by **Michael Snyder**

**Unfortunately, it has become exceedingly clear that cool heads are not prevailing, and that means big trouble is ahead. The following are 11 ways that western powers are currently escalating the end times war in Ukraine...**

**#1 U.S. Secretary of State Antony Blinken says that NATO countries have been given a “green light” to send fighter jets to Ukraine. But the Russians have already clearly warned us that anyone that chooses to do such a thing could be considered an active participant in the conflict.**

**#2 Blinken has also announced that the Biden administration has told authorities in Poland that it will give them new fighter jets to replace any of their older fighter jets that they decide to send to Ukraine...**

**By Saturday evening, US and Polish officials were in discussions about a potential agreement to supply the country with American F-16 fighter jets in exchange for Poland sending its Russian-made jets to Ukraine.**

**“We are working with Poland as we speak to see if we can backfill anything that they provide to the Ukrainians,” Blinken said Sunday. “But we also want to see if we can be helpful in making sure that, whatever they provide to Ukrainians, something goes to them to make up for any gap in the security for Poland that might result.”**

**#3 CNN is reporting that the U.S. and other western powers are using a secret airfield in eastern Europe to funnel hundreds of millions of dollars worth of weapons to the Ukrainian military. So what happens if the Russians decide to bomb that airfield?**

**#4 U.S. Senator Chris Murphy says that it looks like Congress could soon pass a new package that contains 10 billion dollars of additional funding for Ukraine...**

**Senator Murphy had a remedy for this during his interview on Sunday, claiming that he believes Congress is on track to approve \$10 billion for additional funding for Ukraine.**

**‘My belief is that next week congress is going to pass an emergency funding bill for Ukraine, putting 10 billion into both defensive equipment for Ukraine but also humanitarian assistance to get civilians out,’ the Connecticut senator said.**

**#5 Just a few days ago, U.S. Senator Lindsey Graham publicly called for the assassination of Vladimir Putin on Twitter. If you have not seen that tweet yet, this is what he said...**

**Is there a Brutus in Russia?**

**Is there a more successful Colonel Stauffenberg in the Russian military?**

**The only way this ends is for somebody in Russia to take this guy out. You would be doing your country – and the world – a great service.**

**#6 According to the New York Times, “small groups of military veterans” all over America are planning to go over to Ukraine to join the war...**

**All across the United States, small groups of military veterans are gathering, planning and getting passports in order. After years of serving in smoldering occupations, trying to spread democracy in places that had only a tepid interest in it, many are hungry for what they see as a righteous fight to defend freedom against an autocratic aggressor with a conventional and target-rich army.**

**#7 According to the Ukrainian embassy in Washington, over 3,000 Americans have already applied to fight the Russians...**

**Several hundred volunteers willing to fight Russians alongside Ukrainian forces already have arrived in that embattled nation, according to a government official there.**

**A defense official at the Ukrainian embassy in Washington, D.C., told Military Times that they have already received more than 3,000 applications for U.S. citizens wanting to fight.**

**#8 It is being reported that politicians in Germany are actually considering reestablishing a military draft...**

**Wolfgang Hellmich, a politician for Chancellor Olaf Scholz's centre-left Social Democrats (SPD), called for an "urgent" debate on the issue in an interview with the Rheinische Post newspaper on Tuesday.**

**Compulsory military service would help "promote public spirit," he said, also calling for careers in the Bundeswehr to be made more attractive to young people.**

**#9 Visa and Mastercard have just suspended all operations in Russia.**

**#10 American Express has just suspended all operations in Russia.**

**#11 With each new day, western governments are imposing even more sanctions on the Russians. Over the weekend, Vladimir Putin stated that such sanctions are essentially a "declaration of war"...**

**President Vladimir Putin said on Saturday that Western sanctions on Russia were akin to a declaration of war and warned that any attempt to impose a no-fly zone in Ukraine would lead to catastrophic consequences for the world.**

**If we keep escalating matters day after day, it won't be too long before it isn't just Ukraine and Russia that are fighting.**

**Do we really want that to happen?**

**Do we really want a war with Russia?**

**If not, our leaders should be looking for ways to bring this conflict to a peaceful resolution.**

**Everyone in the western world needs to understand that a war with Russia would be completely different from a war with Iraq or a war with Afghanistan.**

**Russia possesses one of the most fearsome military machines the world has ever seen, and they have been working feverishly to upgrade and modernize their strategic nuclear arsenal.**

**If Putin gave the order, major cities from coast to coast would be completely obliterated and millions upon millions of Americans would instantly die.**

**Of course we would hit the Russians back, and their losses would be catastrophic as well.**

**Theoretically, a rational leader on the Russian side would want to avoid such a nuclear nightmare.**

**But what if Putin is not thinking rationally at this point?**

**It should be unthinkable for any nuclear power to have a leader that isn't all there mentally, but the truth is that we have a leader that is in an advanced state of mental decline in Washington right now.**

**Our world has reached such a critical turning point, and any mistakes at this stage could have extremely dire consequences for all of us.**

**Trump Floats Idea That U.S. Bomb Russia With Jets In China Flags, Then 'Sit Back And Watch' <https://www.huffpost.com/entry/trump-putin-bomb-russia-chinese-flags-gop-donors> n 62252fa1e4b03bc49a9cc339 [YOU CAN'T MAKE THIS S\*\*T UP: "...Former President Donald Trump on Saturday floated a horrifying scenario during a speech to some 250 elite Republican donors: He said the U.S. could bomb Russia with jets disguised with Chinese flags, then sit back and watch those nations go to war. Specifically, Trump said the U.S. could "put the Chinese flag" on F-22 fighter jets and use them to "bomb the shit out of Russia," according to a recording of his speech that was obtained by The Washington Post. "And then we say, China did it, we didn't do it, China did it, and then they start fighting with each other and we sit back and watch," Trump said. The audience laughed at the comment, which seemingly was made in jest, a source told CBS News. The Post noted it would be highly unlikely that Russia would believe a distinctive F-22 had been sent by China. Such deception would also appear to violate the Geneva Conventions, which prohibit using a flag, insignia or uniform of another nation during an armed conflict. "A ruse like that one is perfidy and violates [international humanitarian law] and customary international law. Perfidy in lay terms is treachery," William Banks, a law professor at Syracuse University who researches national security, told the Post. Trump previously praised "brilliant" Russian President Vladimir Putin's invasion of Ukraine as "genius." (Former Vice President Mike Pence said Friday at the same event for GOP donors that there's "no room" in the party for "apologists for Putin," but he didn't call out Trump specifically.) Trump also praised North Korean leader Kim Jong Un during his speech, calling the dictator "seriously tough" and saying his top generals and aides "cower" before him. "His people were sitting at attention," Trump recalled. "I looked at my people and said, 'I want my people to act like that.'" Again, the audience laughed. Trump also falsely claimed, yet again, that he won the 2020 presidential election, according to both CBS and the Post. Republican donors may have been chuckling about Trump's speech, but critics on Twitter were not..." TRUMP THE LOUNGE-SINGER/STAND-UP COMIC, MENTALLY ILL MOBSTER/CRIMINAL. ]**

Indeed, trump had plenty of places (properties, losing business ventures, etc.) as intended to clean the dough. And, there's at least one supremie, viz., the corrupt jersey italian non-stallion alito who actively participated in a coverup of a trump-involved casino money laundering scenario and was duly rewarded for his criminal complicity

Eric Holder spent six years as attorney general, and failed to prosecute banks for their criminal wrongdoing or put any bank executives behind bars. Now, he's set to rejoin his old white-collar criminal defense firm, making millions each year helping Wall Street bankers avoid criminal consequences. Worse, it was just reported that the firm, Covington & Burling, has kept an empty 11th floor corner office for Holder awaiting his return. Combined with Holder's purchase a year ago of a \$1.5 million condo just 300 feet from his new office raises serious questions about how long Holder knew he would be getting a major payday from his old firm even while it continued to represent companies under Department of Justice investigation. After being armed to the teeth by western powers, last year the Ukrainians were planning a lightning offensive to take back the breakaway republics of Donetsk And Luhansk...the Biden administration had apparently given the Ukrainians their blessing. Unfortunately for the Ukrainians, the Russians figured out what was happening and rushed about 100,000 troops to the border with Ukraine. That show of force caused the Ukrainians to back down, and there was relative calm for a few months.

**“Is the USA still #1? Well, there are many things that America is still the best in the world at, but unfortunately a lot of those categories are nothing to be proud of. Once upon a time the United States was the greatest nation on earth, but now we are a nation that is in a horrific state of decline. Just consider a few of the embarrassing things that America leads the world in: obesity, crime, divorce, teen pregnancy, child abuse deaths and government debt. The statistics that you are about to read below are incredibly disturbing. Most people that write these kinds of articles about the decline of America hate this country. But that is not the case with me. I was born and raised in America and I love this nation deeply. It is time to realize that we will never be able to start fixing our problems until we take a really good look in the mirror and realize just how far we have fallen. America is not the country that it once was. America is a complete and total mess and just "tweaking" a few things here and there is not going to return this nation to its former glory. We have forgotten the things that once made us great, and if we do not return to them we will continue to fall apart as a nation.”**

### **Only Cold War Fools Hit Replay On Doomsday**

**<https://www.zerohedge.com/geopolitical/only-cold-war-fools-hit-replay-doomsday>** *Former officer at secretive Cheyenne Mountain complex details who's behind nuclear-armed confrontation...* " ...Because there was one thing I knew with certainty: if the next war went nuclear, whether I was on-duty under the mountain or off-duty hiking nearby, I was certainly going to be dead... Yet the article neglects to mention America's overwhelmingly superior nuclear weapons and the actual number of nuclear warheads and bombs our leaders have at their disposal. (The **current numbers**: roughly 5,600 nuclear warheads for the U.S., 350 for China.) At the same time, Iran, which has no nuclear weapons, is nonetheless defined as a serious threat, "an increasingly shrewd rival," in the same article. A "rival" – how absurd! A nation with no nukes isn't a rival to the superpower that nuked Hiroshima and Nagasaki in 1945, killing 250,000 Japanese, and planned to utterly destroy the Soviet Union and China in the 1960s. Believe me, nobody, but nobody, rivals this country's military when it comes to apocalyptic scenarios—and the mindset as well as the ability to achieve them..." [ Only fools believe american propaganda! america spends more on military/"defense" than all the world's nations combined; and, is a provocateur to the fullest extent of the meaning of the term. If it was ever true, it certainly is not true this day; that the inherently criminal americans are "the good guys".] [Keep in mind, despite america's spendthrift ways, america is quite broke **National Debt - These real-time numbers are unsustainable and insurmountable!** **<https://www.usdebtclock.org/>**

Eric Holder spent six years as attorney general, and failed to prosecute banks for their criminal wrongdoing or put any bank executives behind bars. Now, he's set to rejoin his old white-collar criminal defense firm, making millions each year helping Wall Street bankers avoid criminal consequences. Worse, it was just reported that the firm, Covington & Burling, has kept an empty 11th floor corner office for Holder awaiting his return. Combined with Holder's purchase a year ago of a \$1.5 million condo just 300 feet from his new office raises serious questions about how long Holder knew he would be getting a major payday from his old firm even while it continued to represent companies under Department of Justice investigation. 1. **Joe Biden will not finish the year as President of the United States. I've been saying this since the beginning of his term: I wish Joe well, but I just don't think he's going to be able to make it another 12 months - and I'm not sure his party will let him. [ Why am I not surprised! ]**
2. **Eric Adams is recognized widely, by both sides of the aisle, as *exactly* what New York City needed and is praised for his job in balancing liberal policy with maintaining law and order.**
3. **Inflation replaces Covid and becomes the key political issue driving U.S. policy for the second half of the year, into mid-terms**
4. **Mid-terms then swing wildly in favor of the GOP**
5. **Presidential candidates for 2024 will start to emerge especially early, in late 2022, instead of the spring before the election year (Spring 2023) when they usually begin announcing**
6. **Beto O'Rourke will get blown out in the Texas Governor's race**
7. **Elizabeth Warren and AOC continue to drum up conversation within their own party about members of Congress being allowed to trade stocks**

- 8.The issue (members of congress trading stocks) puts Nancy Pelosi at odds with her own party and Pelosi starts losing the support of her party publicly**
- 9.Leaning on his evisceration of Dr. Fauci over the last year, Sen. Rand Paul will announce in late 2022/early 2023 that he is running for President and will post extremely formidable numbers early on, standing at stark odds with his last Presidential run. He will be a contender for 2024.**
- 10.AOC challenges Senate Majority Leader Chuck Schumer in a 2022 primary**
- 11.Herschel Walker wins his 2022 Senate election in Georgia by a landslide**
- 12.Republican Marco Rubio holds in Florida**
- 13.As such, Florida swings further red than it was in years prior. Florida's image post-2022 changes from being a guaranteed swing state to a more solidly red state as a result of many people who have defected there for its policies**
- 14.Winsome Sears becomes a political smash hit for the Republican Party and immediately becomes part of the discussion of running for higher office**

## **Covid-19**

- 1. The next Covid variant will be weaker than Omicron and will be a turning point for the populace, who will push back harder than ever against mandates and lockdowns.**
- 2. The mainstream media will make one of its largest pivots in history on how it reports on Covid, and in general, spurred by the success of Joe Rogan.**

He's clearly hired. And they explicitly say the article was funded by the Robert Boyd Johnson foundation and the Zuckerberg-Chan initiative. He was totally obsessed. 'Robert, why are you saying these things? You must have some financial incentive. There must be some reason you're doing this' - and I told him repeatedly, 'because it's the right thing to do.' I think I'm the only one who has been involved deeply in the development of this tech, that doesn't have a financial stake in it. For me, the reason is, because what's happening is not right. It's destroying my profession. It's destroying the practice of medicine worldwide ... I'm a vaccinologist. I spent 30 years developing vaccines. A stupid amount of education learning how to do it, and what the rules are. And for me, I'm personally offended watching my discipline get destroyed for no good reason at all except, apparently, financial incentives, and - I dunno - political ass-covering?" -Robert Malone*

**ZEROHEDGE How To Survive The Mega Collapse Of 2022**

**"...SIGNIFICANTLY OVERVALUED** A look at the S&P 500 is a good place to start. The broad market index just hit a new record high – again! But price is one thing. Does the S&P 500 have the earnings to back it up? The S&P 500's current valuation, when compared to its historical valuations going back to 1871, reveals a stock market with significant risks. As of the December 30 market close, the Cyclically Adjusted Price Earnings (CAPE) ratio is 40.09. That's over 137 percent higher than the CAPE ratio's long-term historical average...and well above the 32.56 CAPE ratio reached in September 1929. The only time the CAPE ratio has been higher is for a brief moment at the dot com bubble peak, in December 1999, in the run-up to the new millennium, when it hit 44.19. Following

**both of these CAPE ratio peaks – September 1929 and December 1999 – the stock market crashed in spectacular fashion. In short, based on the current CAPE ratio, the S&P 500 is now well over double the cost of its historical average. The NASDAQ and DJIA are also both at nose bleed levels. Similarly, the Buffett indicator, which is a ratio of the total market capitalization over gross domestic product, shows that the overall stock market is significantly overvalued. The ratio currently stands at about 209.5 percent. A fairly valued market is a ratio somewhere between 98 and 119 percent. Anything above 141 percent is considered significantly overvalued. Obviously, the most reliable way to make money in the stock market is to buy low and sell high. Conversely, buying high and selling low is a guaranteed way to lose money. Based on current valuations, buying the major U.S. stock market indexes right now would be buying high. Perhaps you could buy high and sell higher. But this isn't an advisable way to invest. Not unless you consider gambling to be investing. Successful long term index fund investing involves buying when the market index is cheap – when the CAPE ratio is below 15 or the Buffett indicator is below 76 percent. Based on the CAPE ratio and the Buffett indicator, the U.S. stock market is currently significantly overvalued. Moreover, it continues to be propelled dangerously upward by central bank credit pumping; real tightening will not be occurring for quite some time..."**

here's the chief of the money-printers himself, Jerome Powell. The Federal Reserve head attended Georgetown Law Center at the same time we did (though we don't recall him). Now, after years of apparently trading on the Fed's "inside information," he is worth up to \$55 million. Truthout has the lowdown: Federal Reserve Chair Jerome Powell sold between \$1 million and \$5 million worth of stock just before a large stock market crash last year, according to new disclosure filings reviewed by The American Prospect. Powell's massive sale came on October 1, 2020..."

**GOD SPEAKS – PART III By Bill Bonner October 26, 2021 Bonner**  
"...Empires fail..four of the biggest jackasses in the country..Bush, Obama, Trump, and Biden...you voted for them..Bush spent \$8 trillion on his dumbass War on Terror. Obama added another \$9 trillion to the U.S. debt pile bailing out Wall Street after the mortgage financing bubble burst. Then, along came Trump. In a way, he was the worst of the lot. Not only did he add another \$8 trillion in debt, he discredited the only thing that might stop the collapse – intelligent, clear-headed conservatism. Now, in the U.S., if you call yourself a "conservative," people think you must wear buffalo horns. And now Biden. Geez... really? Drive people into opposing camps... get them fighting over removing statues and sex change operations for children... keep real interest rates below zero (even during a boom)... add trillions more to the debt... and talk up war with China – is there a worse formula for a declining empire?..."

A small group of stocks, primarily mega-cap tech shares, have supported the market, while most stocks have been declining for several weeks now. The disproportionately large impact that mega-cap companies can have on market capitalization-weighted indexes has effectively hidden this fact, so while the S&P500 has only declined by approximately 4%, the average stock in the index is down -15.5% through December 1...”**

**“Is the USA still #1? Well, there are many things that America is still the best in the world at, but unfortunately a lot of those categories are nothing to be proud of. Once upon a time the United States was the greatest nation on earth, but now we are a nation that is in a horrific state of decline. Just consider a few of the embarrassing things that America leads the world in: obesity, crime, divorce, teen pregnancy, child abuse deaths and government debt. The statistics that you are about to read below are incredibly disturbing. Most people that write these kinds of articles about the decline of America hate this country. But that is not the case with me. I was born and raised in America and I love this nation deeply. It is time to realize that we will never be able to start fixing our problems until we take a really good look in the mirror and realize just how far we have fallen. America is not the country that it once was. America is a complete and total mess and just "tweaking" a few things here and there is not going to return this nation to its former glory. We have forgotten the things that once made us great, and if we do not return to them we will continue to fall apart as a nation.”**

"...Because there was one thing I knew with certainty: if the next war went nuclear, whether I was on-duty under the mountain or off-duty hiking nearby, I was certainly going to be dead... Yet the article neglects to mention America's overwhelmingly superior nuclear weapons and the actual number of nuclear warheads and bombs our leaders have at their disposal. (The current numbers: roughly 5,600 nuclear warheads for the U.S., 350 for China.) At the same time, Iran, which has no nuclear weapons, is nonetheless defined as a serious threat, "an increasingly shrewd rival," in the same article. A "rival" – how absurd! A nation with no nukes isn't a rival to the superpower that nuked Hiroshima and Nagasaki in 1945, killing 250,000 Japanese, and planned to utterly destroy the Soviet Union and China in the 1960s. Believe me, nobody, but nobody, rivals this country's military when it comes to apocalyptic scenarios—and the mindset as well as the ability to achieve them..." [ Only fools believe american propaganda! america spends more on military/"defense" than all the world's nations combined; and, is a provocateur to the fullest extent of the meaning of the term. If it was ever true, it certainly is not true this day; that the inherently criminal americans are "the good guys".]

GOD SPEAKS – PART III By Bill Bonner October 26, 2021 Bonner

"...Empires fail, for example, but they don't fail on their own. You can make a mess of your own life, all by yourself. But bringing down an empire... that requires leadership. In that respect, America seems especially lucky. She found four of the biggest jackasses in the country to help grease the skids. Bush, Obama, Trump, and Biden...you voted for them. And they were perfect for the job; the kind of "useful idiots" that history needs. Bush spent \$8 trillion on his dumbass War on Terror. Obama added another \$9 trillion to the U.S. debt pile bailing out Wall Street after the mortgage financing bubble burst. Then, along came Trump. In a way, he was the worst of the lot. Not only did he add another \$8 trillion in debt, he discredited the only thing that might stop the collapse – intelligent, clear-headed conservatism. Now, in the U.S., if you call yourself a "conservative," people think you must wear buffalo horns. And now Biden. Geez... really? Drive people into opposing camps... get them fighting over removing statues and sex change operations for children... keep real interest rates below zero (even during a boom)... add trillions more to the debt... and talk up war with China – is there a worse formula for a declining empire?..."

Here's the Asia Times: Gobbling China's exports, US sinks into dependency. China's exports rose 28% in September from the year-earlier level, more than the analyst consensus had forecast. More important is that China's exports to the United States have risen by 31% since January 2018, when President Trump imposed tariffs on a wide range of US imports from China. At a seasonally adjusted annual rate, the US is buying \$635 billion of Chinese goods, equal to a staggering 27% of US manufacturing Gross Domestic Product.**

**Is Talk Of A “Russian Invasion” Actually A Smokescreen For A Ukrainian Invasion Of Donetsk And Luhansk? <http://endoftheamericandream.com/is-talk-of-a-russian-invasion-actually-a-smokescreen-for-a-ukrainian-invasion-of-donetsk-and-luhansk/>** Is all the talk of a “Russian invasion” in the media just an effort to try to prevent the Russians from intervening when Ukraine invades Donetsk And Luhansk? After being armed to the teeth by western powers, last year the Ukrainians were planning a lightning offensive to take back the breakaway republics of Donetsk And Luhansk...the Biden administration had apparently given the Ukrainians their blessing. Unfortunately for the Ukrainians, the Russians figured out what was happening and rushed about 100,000 troops to the border with Ukraine. That show of force caused the Ukrainians to back down, and there was relative calm for a few months.
