**Lawrence Anderson - COMMUTED BY GOV STITT -"murdered his neighbor, a 41-year-old white woman named Andrea Lynn Blankenship. He carved her heart out Temple of Doom-style, he took the heart back to his apartment, he cooked it with potatoes for dinner.."**

**Replying to @AnnCoulter**

**Lawrence Paul Anderson, 42, confessed to breaking into 41-year-old Andrea Lynn Blankenship's home in Chickasha, Oklahoma, on Feb. 12 by breaking down her back door with his shoulder. He then allegedly confessed to killing her and cutting out her heart, taking it across the street to his aunt and uncle's home and sauteing it with potatoes. He then tried to force them to eat it to "release the demons" before he fatally attacked his uncle and nearly killed his aunt. He is also charged with murdering their 4-year old granddaughter Kaeos Yates.**

Worse, it was just reported that the firm, Covington & Burling, has kept an empty 11th floor corner office for Holder awaiting his return. Combined with Holder's purchase a year ago of a \$1.5 million condo just 300 feet from his new office raises serious questions about how long Holder knew he would be getting a major payday from his old firm even while it continued to represent companies under Department of Justice investigation. ***"...But it's not just that about which we are in denial. It's also about the death of American mythology. We've been lied to so long in America it's hard sometimes to know truth from fiction. I was born in 1971, and I was raised with history lessons in school that included things like Manifest Destiny (used to justify indigenous genocide, land theft, and the use of Chinese slave labor to build railroads), the "discovery" of America by Columbus (to justify violent colonialism), and the end of the enslavement of Black Americans as a distant historical event (as though the repercussions of it don't live on to this day given that slavery was the foundation of American capitalism and white supremacy). Even as recently as the past few years, many of us have fallen for the lie that this is a real democracy\*. Democracy, though, requires real representation and rule by the people, under the theory that the people have the right to rule. Democracy is supposed to be in direct opposition to autocracy, where power of the few (whether monarchs or oligarchs) is lorded over the many through extreme wealth disparity, abuse of power, and control of the many to benefit those in power. I ask you: which one sounds like more like America today? As but one example, over the past few days I've seen polling that indicates that more than 88% of Americans favor background checks on gun sales, and more than 67% favor an assault weapons ban. The likelihood that any such legislation will pass, though, is literally nil absent reform of the filibuster, the end to which lies in the hands of a tiny, tiny number of people. Some of us have known for a long time that America was a lie. Some of us are just waking up to it. How do you grieve the promise of a nation that never was?..."***

**UNITED STATES of America, et al., Defendants.**

**“...The facts are taken as alleged in the complaint<sup>[1]</sup>. Plaintiff alleges a broad-ranging conspiracy involving the United States of America, the U.S. Bankruptcy Courts, various U.S. District Court Judges, various U.S. Bankruptcy Trustees, the U.S. Attorney's Office, Donald Trump, the FBI, and fifteen John Doe defendants...” “...In 1987, Plaintiff commenced an action alleging civil RICO violations in the U.S. District Court for the District of New Jersey to recover money owed to him by a Mr. Dilena. The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989...”**

**(f) Notwithstanding the preceding provisions of this section, if any justice, judge, magistrate judge, or bankruptcy judge to whom a matter has been assigned would be disqualified, after substantial judicial time has been devoted to the matter, because of the appearance or discovery, after the matter was assigned to him or her, that he or she individually or as a fiduciary, or his or her spouse or minor child residing in his or her household, has a financial interest in a party (other than an interest that could be substantially affected by the outcome), disqualification is not required if the justice, judge, magistrate judge, bankruptcy judge, spouse or minor child, as the case may be, divests himself or herself of the interest that provides the grounds for the disqualification.**

## **What Would A Global Nuclear Conflict Look Like?**

**<http://endoftheamericandream.com/what-would-a-global-nuclear-conflict-look-like/>** I simply do not understand why so many on the left and so many on the right seem determined to push us into a military conflict with Russia. If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

***"...But it's not just that about which we are in denial. It's also about the death of American mythology. We've been lied to so long in America it's hard sometimes to know truth from fiction. I was born in 1971, and I was raised with history lessons in school that included things like Manifest Destiny (used to justify indigenous genocide, land theft, and the use of Chinese slave labor to build railroads), the "discovery" of America by Columbus (to justify violent colonialism), and the end of the enslavement of Black Americans as a distant historical event (as though the repercussions of it don't live on to this day given that slavery was the foundation of American capitalism and white supremacy). Even as recently as the past few years, many of us have fallen for the lie that this is a real democracy\*. Democracy, though, requires real representation and rule by the people, under the theory that the people have the right to rule. Democracy is supposed to be in direct opposition to autocracy, where power of the few (whether monarchs or oligarchs) is lorded over the many through extreme wealth disparity, abuse of power, and control of the many to benefit those in power. I ask you: which one sounds like more like America today? As but one example, over the past few days I've seen polling that indicates that more than 88% of Americans favor background checks on gun sales, and more than 67% favor an assault weapons ban. The likelihood that any such legislation will pass, though, is literally nil absent reform of the filibuster, the end to which lies in the hands of a tiny, tiny number of people. Some of us have known for a long time that America was a lie. Some of us are just waking up to it. How do you grieve the promise of a nation that never was?..."***

Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989..."

**Here's...the most ridiculous stories from around the world:**

***..."*FORGET ELON MUSK. HUNTER BIDEN MUST CLEARLY BE THE GREATEST BUSINESSMAN OF ALL TIME.**

***Yesterday, NBC News released an analysis of Hunter Biden's hard drive, showing that the Big Guy's son earned a whopping \$11 million over the past few years from Ukrainian and Chinese firms with which he did business. It's not clear exactly what Hunter, now a famous artist (what a Renaissance Man!), did to earn such a prodigious sum. Don't worry, though. President Biden is "sure his son did not break the law". Just like***

### **NANCY PELOSI FINALLY LOSES SOME MONEY**

*Nancy Pelosi's investment acumen is the stuff of legends, perhaps only rivaled by Hunter Biden's business acumen. For years, the US Speaker of the House raked in millions upon millions of dollars from conveniently well-timed stock and options trades— from which she has become one of the wealthiest women in the world. Not bad for a gal who has been in politics for her entire life. She truly embodies the American Dream!"...*

***"...But it's not just that about which we are in denial. It's also about the death of American mythology. We've been lied to so long in America it's hard sometimes to know truth from fiction. I was born in 1971, and I was raised with history lessons in school that included things like Manifest Destiny (used to justify indigenous genocide, land theft, and the use of Chinese slave labor to build railroads), the "discovery" of America by Columbus (to justify violent colonialism), and the end of the enslavement of Black Americans as a distant historical event (as though the repercussions of it don't live on to this day given that slavery was the foundation of American capitalism and white supremacy). Even as recently as the past few years, many of us have fallen for the lie that this is a real democracy\*. Democracy, though, requires real representation and rule by the people, under the theory that the people have the right to rule. Democracy is supposed to be in direct opposition to autocracy, where power of the few (whether monarchs or oligarchs) is lorded over the many through extreme wealth disparity, abuse of power, and control of the many to benefit those in power. I ask you: which one sounds like more like America today? As but one example, over the past few days I've seen polling that indicates that more than 88% of Americans favor background checks on gun sales, and more than 67% favor an assault weapons ban. The likelihood that any such legislation will pass, though, is literally nil absent reform of the filibuster, the end to which lies in the hands of a tiny, tiny number of people. Some of us have known for a long time that America was a lie. Some of us are just waking up to it. How do you grieve the promise of a nation that never was?..."***

**UNITED STATES of America, et al., Defendants.**

**“...The facts are taken as alleged in the complaint<sup>[1]</sup>. Plaintiff alleges a broad-ranging conspiracy involving the United States of America, the U.S. Bankruptcy Courts, various U.S. District Court Judges, various U.S. Bankruptcy Trustees, the U.S. Attorney's Office, Donald Trump, the FBI, and fifteen John Doe defendants...” “...In 1987, Plaintiff commenced an action alleging civil RICO violations in the U.S. District Court for the District of New Jersey to recover money owed to him by a Mr. Dilena. The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. **(a) Any justice, judge, or magistrate judge of the United States shall disqualify himself in any proceeding in which his impartiality might reasonably be questioned.**

**(b) He shall also disqualify himself in the following circumstances:**

**(1) Where he has a personal bias or prejudice concerning a party, or personal knowledge of disputed evidentiary facts concerning the proceeding;**

**(2) Where in private practice he served as lawyer in the matter in controversy, or a lawyer with whom he previously practiced law served during such association as a lawyer concerning the matter, or the judge or such lawyer has been a material witness concerning it;**

**(3) Where he has served in governmental employment and in such capacity participated as counsel, adviser or material witness concerning the proceeding or expressed an opinion concerning the merits of the particular case in controversy;**

**(4) He knows that he, individually or as a fiduciary, or his spouse or minor child residing in his household, has a financial interest in the subject matter in controversy or in a party to the proceeding, or any other interest that could be substantially affected by the outcome of the proceeding;**

**(5) He or his spouse, or a person within the third degree of relationship to either of them, or the spouse of such a person:**

**(i) Is a party to the proceeding, or an officer, director, or trustee of a party;**

**(ii) Is acting as a lawyer in the proceeding;**

**(iii) Is known by the judge to have an interest that could be substantially affected by the outcome of the proceeding;**

**(iv) Is to the judge's knowledge likely to be a material witness in the proceeding.**

**(3) "fiduciary" includes such relationships as executor, administrator, trustee, and guardian;**

**(4) "financial interest" means ownership of a legal or equitable interest, however small, or a relationship as director, adviser, or other active participant in the affairs of a party, except that:**

**(i) Ownership in a mutual or common investment fund that holds securities is not a "financial interest" in such securities unless the judge participates in the management of the fund;**

**(ii) An office in an educational, religious, charitable, fraternal, or civic organization is not a "financial interest" in securities held by the organization;**

**(iii) The proprietary interest of a policyholder in a mutual insurance company, of a depositor in a mutual savings association, or a similar proprietary interest, is a “financial interest” in the organization only if the outcome of the proceeding could substantially affect the value of the interest;**

**(iv) Ownership of government securities is a “financial interest” in the issuer only if the outcome of the proceeding could substantially affect the value of the securities.**

**(e) No justice, judge, or magistrate judge shall accept from the parties to the proceeding a waiver of any ground for disqualification enumerated in subsection (b). Where the ground for disqualification arises only under subsection (a), waiver may be accepted provided it is preceded by a full disclosure on the record of the basis for disqualification.**

**(f) Notwithstanding the preceding provisions of this section, if any justice, judge, magistrate judge, or bankruptcy judge to whom a matter has been assigned would be disqualified, after substantial judicial time has been devoted to the matter, because of the appearance or discovery, after the matter was assigned to him or her, that he or she individually or as a fiduciary, or his or her spouse or minor child residing in his or her household, has a financial interest in a party (other than an interest that could be substantially affected by the outcome), disqualification is not required if the justice, judge, magistrate judge, bankruptcy judge, spouse or minor child, as the case may be, divests himself or herself of the interest that provides the grounds for the disqualification.**

## **What Would A Global Nuclear Conflict Look Like?**

**<http://endoftheamericandream.com/what-would-a-global-nuclear-conflict-look-like/>** I simply do not understand why so many on the left and so many on the right seem determined to push us into a military conflict with Russia. If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

Now, he's set to rejoin his old white-collar criminal defense firm, making millions each year helping Wall Street bankers avoid criminal consequences. Worse, it was just reported that the firm, Covington & Burling, has kept an empty 11th floor corner office for Holder awaiting his return. Combined with Holder's purchase a year ago of a \$1.5 million condo just 300 feet from his new office raises serious questions about how long Holder knew he would be getting a major payday from his old firm even while it continued to represent companies under Department of Justice investigation. ***"...But it's not just that about which we are in denial. It's also about the death of American mythology. We've been lied to so long in America it's hard sometimes to know truth from fiction. I was born in 1971, and I was raised with history lessons in school that included things like Manifest Destiny (used to justify indigenous genocide, land theft, and the use of Chinese slave labor to build railroads), the "discovery" of America by Columbus (to justify violent colonialism), and the end of the enslavement of Black Americans as a distant historical event (as though the repercussions of it don't live on to this day given that slavery was the foundation of American capitalism and white supremacy). Even as recently as the past few years, many of us have fallen for the lie that this is a real democracy\*. Democracy, though, requires real representation and rule by the people, under the theory that the people have the right to rule. Democracy is supposed to be in direct opposition to autocracy, where power of the few (whether monarchs or oligarchs) is lorded over the many through extreme wealth disparity, abuse of power, and control of the many to benefit those in power. I ask you: which one sounds like more like America today? As but one example, over the past few days I've seen polling that indicates that more than 88% of Americans favor background checks on gun sales, and more than 67% favor an assault weapons ban. The likelihood that any such legislation will pass, though, is literally nil absent reform of the filibuster, the end to which lies in the hands of a tiny, tiny number of people. Some of us have known for a long time that America was a lie. Some of us are just waking up to it. How do you grieve the promise of a nation that never was?..."***

**UNITED STATES of America, et al., Defendants.**

**"...The facts are taken as alleged in the complaint<sup>[1]</sup>. Plaintiff alleges a broad-ranging conspiracy involving the United States of America, the U.S. Bankruptcy Courts, various U.S. District Court Judges, various U.S. Bankruptcy Trustees, the U.S. Attorney's Office, Donald Trump, the FBI, and fifteen John Doe defendants..." " ...In 1987, Plaintiff commenced an action alleging civil RICO violations in the U.S. District Court for the District of New Jersey to recover money owed to him by a Mr. Dilena. The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989..."**

**<http://endoftheamericandream.com/what-would-a-global-nuclear-conflict-look-like/>** I simply do not understand why so many on the left and so many on the right seem determined to push us into a military conflict with Russia. If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

**Here's...the most ridiculous stories from around the world:**

**... "FORGET ELON MUSK. HUNTER BIDEN MUST CLEARLY BE THE GREATEST BUSINESSMAN OF ALL TIME.**

**Yesterday, NBC News released an analysis of Hunter Biden's hard drive, showing that the Big Guy's son earned a whopping \$11 million over the past few years from Ukrainian and Chinese firms with which he did business. It's not clear exactly what Hunter, now a famous artist (what a Renaissance Man!), did to earn such a prodigious sum. Don't worry,**

### **NANCY PELOSI FINALLY LOSES SOME MONEY**

***Nancy Pelosi’s investment acumen is the stuff of legends, perhaps only rivaled by Hunter Biden’s business acumen. For years, the US Speaker of the House raked in millions upon millions of dollars from conveniently well-timed stock and options trades— from which she has become one of the wealthiest women in the world. Combined with Holder's purchase a year ago of a \$1.5 million condo just 300 feet from his new office raises serious questions about how long Holder knew he would be getting a major payday from his old firm even while it continued to represent companies under Department of Justice investigation. I inserted this here to emphasize what incompetent (I looked in on one of his cases/trial-he was pathetic), corrupt guinea alito is guilty of; people are in prison for far less (disappeared probative documents twice, quid pro quo appointments-3rd cir., sct.). Criminal america's jurisprudence is a cruel joke!

***"...But it's not just that about which we are in denial. It's also about the death of American mythology. We've been lied to so long in America it's hard sometimes to know truth from fiction. I was born in 1971, and I was raised with history lessons in school that included things like Manifest Destiny (used to justify indigenous genocide, land theft, and the use of Chinese slave labor to build railroads), the "discovery" of America by Columbus (to justify violent colonialism), and the end of the enslavement of Black Americans as a distant historical event (as though the repercussions of it don't live on to this day given that slavery was the foundation of American capitalism and white supremacy). Even as recently as the past few years, many of us have fallen for the lie that this is a real democracy\*. Democracy, though, requires real representation and rule by the people, under the theory that the people have the right to rule. Democracy is supposed to be in direct opposition to autocracy, where power of the few (whether monarchs or oligarchs) is lorded over the many through extreme wealth disparity, abuse of power, and control of the many to benefit those in power. I ask you: which one sounds like more like America today? As but one example, over the past few days I've seen polling that indicates that more than 88% of Americans favor background checks on gun sales, and more than 67% favor an assault weapons ban. The likelihood that any such legislation will pass, though, is literally nil absent reform of the filibuster, the end to which lies in the hands of a tiny, tiny number of people. Some of us have known for a long time that America was a lie. Some of us are just waking up to it. How do you grieve the promise of a nation that never was?..."***

## **What Would A Global Nuclear Conflict Look Like?**

**<http://endoftheamericandream.com/what-would-a-global-nuclear-conflict-look-like/>** I simply do not understand why so many on the left and so many on the right seem determined to push us into a military conflict with Russia. If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

***"...But it's not just that about which we are in denial. It's also about the death of American mythology. We've been lied to so long in America it's hard sometimes to know truth from fiction. I was born in 1971, and I was raised with history lessons in school that included things like Manifest Destiny (used to justify indigenous genocide, land theft, and the use of Chinese slave labor to build railroads), the "discovery" of America by Columbus (to justify violent colonialism), and the end of the enslavement of Black Americans as a distant historical event (as though the repercussions of it don't live on to this day given that slavery was the foundation of American capitalism and white supremacy). Even as recently as the past few years, many of us have fallen for the lie that this is a real democracy\*. Democracy, though, requires real representation and rule by the people, under the theory that the people have the right to rule. Democracy is supposed to be in direct opposition to autocracy, where power of the few (whether monarchs or oligarchs) is lorded over the many through extreme wealth disparity, abuse of power, and control of the many to benefit those in power. I ask you: which one sounds like more like America today? As but one example, over the past few days I've seen polling that indicates that more than 88% of Americans favor background checks on gun sales, and more than 67% favor an assault weapons ban. The likelihood that any such legislation will pass, though, is literally nil absent reform of the filibuster, the end to which lies in the hands of a tiny, tiny number of people. Some of us have known for a long time that America was a lie. Some of us are just waking up to it. How do you grieve the promise of a nation that never was?..."***

**Albert L. PEIA, Plaintiff,**

**v.**

**UNITED STATES of America, et al., Defendants.**

**"...The facts are taken as alleged in the complaint<sup>[1]</sup>. Plaintiff alleges a broad-ranging conspiracy involving the United States of America, the U.S. Bankruptcy Courts, various U.S. District Court Judges, various U.S. Bankruptcy Trustees, the U.S. Attorney's Office, Donald Trump, the FBI, and fifteen John Doe defendants..." " ...In 1987, Plaintiff commenced an action alleging civil RICO violations in the U.S. District Court for the District of New Jersey to recover money owed to him by a Mr. Dilena. The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989..."**

## **What Would A Global Nuclear Conflict Look Like?**

**<http://endoftheamericandream.com/what-would-a-global-nuclear-conflict-look-like/>** I simply do not understand why so many on the left and so many on the right seem determined to push us into a military conflict with Russia. If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

**NANCY PELOSI FINALLY LOSES SOME MONEY BY Sovereign Man**

**Here's...the most ridiculous stories from around the world:**

***..."FORGET ELON MUSK. HUNTER BIDEN MUST CLEARLY BE THE GREATEST BUSINESSMAN OF ALL TIME.***

***Yesterday, NBC News released an analysis of Hunter Biden's hard drive, showing that the Big Guy's son earned a whopping \$11 million over the past few years from Ukrainian and Chinese firms with which he did business. It's not clear exactly what Hunter, now a famous artist (what a Renaissance Man!), did to earn such a prodigious sum. Don't worry, though. President Biden is "sure his son did not break the law". Just like he was sure the Taliban would not recapture Afghanistan.***

**NANCY PELOSI FINALLY LOSES SOME MONEY**

***Nancy Pelosi's investment acumen is the stuff of legends, perhaps only rivaled by Hunter Biden's business acumen. For years, the US Speaker of the House raked in millions upon millions of dollars from conveniently well-timed stock and options trades— from which she has become one of the wealthiest women in the world. [To be fair and balanced, there's also the bush/cheneypaulsen axis of evildoing/war crimes/fraud in the factum, etc.] "It's the revolving door at its most despicable. Eric Holder spent six years as attorney general, and failed to prosecute banks for their criminal wrongdoing or put any bank executives behind bars. Now, he's set to rejoin his old white-collar criminal defense firm, making millions each year helping Wall Street bankers avoid criminal consequences. Worse, it was just reported that the firm, Covington & Burling, has kept an empty 11th floor corner office for Holder awaiting his return. Combined with Holder's purchase a year ago of a \$1.5 million condo just 300 feet from his new office raises serious questions about how long Holder knew he would be getting a major payday from his old firm even while it continued to represent companies under Department of Justice investigation. Yes ... the facebook post for me comprises predominantly a new headline/link and prior of such by quarter. For the last week it doesn't take the new post except in the comment with greater limitation as to size. For me, it's just a marker/pdf file (ie., <http://albertpeia.com/tweets-fbposts5-26-22.pdf> ) ultimately for my website ... no big deal.

***"...But it's not just that about which we are in denial. It's also about the death of American mythology. We've been lied to so long in America it's hard sometimes to know truth from fiction. I was born in 1971, and I was raised with history lessons in school that included things like Manifest Destiny (used to justify indigenous genocide, land theft, and the use of Chinese slave labor to build railroads), the "discovery" of America by Columbus (to justify violent colonialism), and the end of the enslavement of Black Americans as a distant historical event (as though the repercussions of it don't live on to this day given that slavery was the foundation of American capitalism and white supremacy). Even as recently as the past few years, many of us have fallen for the lie that this is a real democracy\*. Democracy, though, requires real representation and rule by the people, under the theory that the people have the right to rule. Democracy is supposed to be in direct opposition to autocracy, where power of the few (whether monarchs or oligarchs) is lorded over the many through extreme wealth disparity, abuse of power, and control of the many to benefit those in power. I ask you: which one sounds like more like America today? As but one example, over the past few days I've seen polling that indicates that more than 88% of Americans favor background checks on gun sales, and more than 67% favor an assault weapons ban. The likelihood that any such legislation will pass, though, is literally nil absent reform of the filibuster, the end to which lies in the hands of a tiny, tiny number of people. Some of us have known for a long time that America was a lie. Some of us are just waking up to it. How do you grieve the promise of a nation that never was?..."***

Albert L. PEIA, Plaintiff,

v.

UNITED STATES of America, et al., Defendants.

**“...The facts are taken as alleged in the complaint<sup>[1]</sup>. Plaintiff alleges a broad-ranging conspiracy involving the United States of America, the U.S. Bankruptcy Courts, various U.S. District Court Judges, various U.S. Bankruptcy Trustees, the U.S. Attorney's Office, Donald Trump, the FBI, and fifteen John Doe defendants...” “...In 1987, Plaintiff commenced an action alleging civil RICO violations in the U.S. District Court for the District of New Jersey to recover money owed to him by a Mr. Dilena. The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989...”**

Where the ground for disqualification arises only under subsection (a), waiver may be accepted provided it is preceded by a full disclosure on the record of the basis for disqualification.**

**(f) Notwithstanding the preceding provisions of this section, if any justice, judge, magistrate judge, or bankruptcy judge to whom a matter has been assigned would be disqualified, after substantial judicial time has been devoted to the matter, because of the appearance or discovery, after the matter was assigned to him or her, that he or she individually or as a fiduciary, or his or her spouse or minor child residing in his or her household, has a financial interest in a party (other than an interest that could be substantially affected by the outcome), disqualification is not required if the justice, judge, magistrate judge, bankruptcy judge, spouse or minor child, as the case may be, divests himself or herself of the interest that provides the grounds for the disqualification.**

## **What Would A Global Nuclear Conflict Look Like?**

**<http://endoftheamericandream.com/what-would-a-global-nuclear-conflict-look-like/>** I simply do not understand why so many on the left and so many on the right seem determined to push us into a military conflict with Russia. If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

Yes ... the facebook post for me comprises predominantly a new headline/link and prior of such by quarter. For the last week it doesn't take the new post except in the comment with greater limitation as to size. For me, it's just a marker/pdf file (ie., <http://albertpeia.com/tweets-fbposts5-26-22.pdf> ) ultimately for my website ... no big deal.

Here's our Friday roll-up of the most ridiculous stories from around the world:

**...*"FORGET ELON MUSK. HUNTER BIDEN MUST CLEARLY BE THE GREATEST BUSINESSMAN OF ALL TIME.***

*Yesterday, NBC News released an analysis of Hunter Biden's hard drive, showing that the Big Guy's son earned a whopping \$11 million over the past few years from Ukrainian and Chinese firms with which he did business. It's not clear exactly what Hunter, now a famous artist (what a Renaissance Man!), did to earn such a prodigious sum. Don't worry, though. President Biden is "sure his son did not break the law". Just like he was sure the Taliban would not recapture Afghanistan. [ Hunter Biden Used Burner-Phone And Data-Recovery Apps: Former US Secret Service Agent ]*

**NANCY PELOSI FINALLY LOSES SOME MONEY**

*Nancy Pelosi's investment acumen is the stuff of legends, perhaps only rivaled by Hunter Biden's business acumen.*

*For years, the US Speaker of the House raked in millions upon millions of dollars from conveniently well-timed stock and options trades— from which she has become one of the wealthiest women in the world. Not bad for a gal who has been in politics for her entire life. She truly embodies the American Dream!"...*

***"...But it's not just that about which we are in denial. It's also about the death of American mythology. We've been lied to so long in America it's hard sometimes to know truth from fiction. I was born in 1971, and I was raised with history lessons in school that included things like Manifest Destiny (used to justify indigenous genocide, land theft, and the use of Chinese slave labor to build railroads), the "discovery" of America by Columbus (to justify violent colonialism), and the end of the enslavement of Black Americans as a distant historical event (as though the repercussions of it don't live on to this day given that slavery was the foundation of American capitalism and white supremacy). Even as recently as the past few years, many of us have fallen for the lie that this is a real democracy\*. Democracy, though, requires real representation and rule by the people, under the theory that the people have the right to rule. Democracy is supposed to be in direct opposition to autocracy, where power of the few (whether monarchs or oligarchs) is lorded over the many through extreme wealth disparity, abuse of power, and control of the many to benefit those in power. I ask you: which one sounds like more like America today? As but one example, over the past few days I've seen polling that indicates that more than 88% of Americans favor background checks on gun sales, and more than 67% favor an assault weapons ban. The likelihood that any such legislation will pass, though, is literally nil absent reform of the filibuster, the end to which lies in the hands of a tiny, tiny number of people. Some of us have known for a long time that America was a lie. Some of us are just waking up to it. How do you grieve the promise of a nation that never was?..."***

Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989..."

Yes ... the facebook post for me comprises predominantly a new headline/link and prior of such by quarter. For the last week it doesn't take the new post except in the comment with greater limitation as to size. For me, it's just a marker/pdf file (ie., <http://albertpeia.com/tweets-fbposts5-26-22.pdf> ) ultimately for my website ... no big deal.

Here's our Friday roll-up of the most ridiculous stories from around the world:

*Yesterday, NBC News released an analysis of Hunter Biden's hard drive, showing that the Big Guy's son earned a whopping \$11 million over the past few years from Ukrainian and Chinese firms with which he did business. It's not clear exactly what Hunter, now a famous artist (what a Renaissance Man!), did to earn such a prodigious sum. Don't worry, though. President Biden is "sure his son did not break the law". **Albert L. PEIA, Plaintiff,**

**v.**

**UNITED STATES of America, et al., Defendants.**

**“...The facts are taken as alleged in the complaint<sup>[1]</sup>. Plaintiff alleges a broad-ranging conspiracy involving the United States of America, the U.S. Bankruptcy Courts, various U.S. District Court Judges, various U.S. Bankruptcy Trustees, the U.S. Attorney's Office, Donald Trump, the FBI, and fifteen John Doe defendants...” “...In 1987, Plaintiff commenced an action alleging civil RICO violations in the U.S. District Court for the District of New Jersey to recover money owed to him by a Mr. Dilena. The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989...”**

**(e) No justice, judge, or magistrate judge shall accept from the parties to the proceeding a waiver of any ground for disqualification enumerated in subsection (b). Where the ground for disqualification arises only under subsection (a), waiver may be accepted provided it is preceded by a full disclosure on the record of the basis for disqualification.**

**(f) Notwithstanding the preceding provisions of this section, if any justice, judge, magistrate judge, or bankruptcy judge to whom a matter has been assigned would be disqualified, after substantial judicial time has been devoted to the matter, because of the appearance or discovery, after the matter was assigned to him or her, that he or she individually or as a fiduciary, or his or her spouse or minor child residing in his or her household, has a financial interest in a party (other than an interest that could be substantially affected by the outcome), disqualification is not required if the justice, judge, magistrate judge, bankruptcy judge, spouse or minor child, as the case may be, divests himself or herself of the interest that provides the grounds for the disqualification.**

## **What Would A Global Nuclear Conflict Look Like?**

**<http://endoftheamericandream.com/what-would-a-global-nuclear-conflict-look-like/>** I simply do not understand why so many on the left and so many on the right seem determined to push us into a military conflict with Russia. If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

***..."*FORGET ELON MUSK. HUNTER BIDEN MUST CLEARLY BE THE GREATEST BUSINESSMAN OF ALL TIME.**

***Yesterday, NBC News released an analysis of Hunter Biden's hard drive, showing that the Big Guy's son earned a whopping \$11 million over the past few years from Ukrainian and Chinese firms with which he did business. It's not clear exactly what Hunter, now a famous artist (what a Renaissance Man!), did to earn such a prodigious sum. Don't worry, though. President Biden is "sure his son did not break the law". Just like he was sure the Taliban would not recapture Afghanistan.***

***NANCY PELOSI FINALLY LOSES SOME MONEY***

***Nancy Pelosi's investment acumen is the stuff of legends, perhaps only rivaled by Hunter Biden's business acumen. For years, the US Speaker of the House raked in millions upon millions of dollars from conveniently well-timed stock and options trades— from which she has become one of the wealthiest women in the world. Worse, it was just reported that the firm, Covington & Burling, has kept an empty 11th floor corner office for Holder awaiting his return. Combined with Holder's purchase a year ago of a \$1.5 million condo just 300 feet from his new office raises serious questions about how long Holder knew he would be getting a major payday from his old firm even while it continued to represent companies under Department of Justice investigation. Yes ... the facebook post for me comprises predominantly a new headline/link and prior of such by quarter. For the last week it doesn't take the new post except in the comment with greater limitation as to size. For me, it's just a marker/pdf file (ie., <http://albertpeia.com/tweets-fbposts5-26-22.pdf> ) ultimately for my website ... no big deal.

v.

UNITED STATES of America, et al., Defendants.

“...The facts are taken as alleged in the complaint<sup>[1]</sup>. Plaintiff alleges a broad-ranging conspiracy involving the United States of America, the U.S. Bankruptcy Courts, various U.S. District Court Judges, various U.S. Bankruptcy Trustees, the U.S. Attorney's Office, Donald Trump, the FBI, and fifteen John Doe defendants...” “...In 1987, Plaintiff commenced an action alleging civil RICO violations in the U.S. District Court for the District of New Jersey to recover money owed to him by a Mr. Dilena. The case was assigned to District Judge Maryanne Trump Barry<sup>[2]</sup>. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.<sup>[3]</sup> After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. ## **What Would A Global Nuclear Conflict Look Like?**

**<http://endoftheamericandream.com/what-would-a-global-nuclear-conflict-look-like/>** I simply do not understand why so many on the left and so many on the right seem determined to push us into a military conflict with Russia. If we get into a shooting war with Russia, one side or the other will inevitably decide that they want to use their nuclear weapons before the other side conducts a surprise first strike of their own. But no matter who strikes first, the whole world would lose, because the vast majority of the global population would end up dead within a few years. This is why I have been so adamant about trying to find a peaceful solution to the crisis in Ukraine. If we have a nuclear conflict with Russia, the vast majority of you that are reading this article would die...

**NANCY PELOSI FINALLY LOSES SOME MONEY BY Sovereign Man**

**Here's...the most ridiculous stories from around the world:**

***..."*FORGET ELON MUSK. HUNTER BIDEN MUST CLEARLY BE THE GREATEST BUSINESSMAN OF ALL TIME.**

***Yesterday, NBC News released an analysis of Hunter Biden's hard drive, showing that the Big Guy's son earned a whopping \$11 million over the past few years from Ukrainian and Chinese firms with which he did business. It's not clear exactly what Hunter, now a famous artist (what a Renaissance Man!), did to earn such a prodigious sum. Don't worry, though. President Biden is "sure his son did not break the law". Just like he was sure the Taliban would not recapture Afghanistan.***

***NANCY PELOSI FINALLY LOSES SOME MONEY***

***Nancy Pelosi's investment acumen is the stuff of legends, perhaps only rivaled by Hunter Biden's business acumen. For years, the US Speaker of the House raked in millions upon millions of dollars from conveniently well-timed stock and options trades— from which she has become one of the wealthiest women in the world. Not bad for a gal who has been in politics for her entire life. She truly embodies the American Dream!"...***

Now, he's set to rejoin his old white-collar criminal defense firm, making millions each year helping Wall Street bankers avoid criminal consequences. Worse, it was just reported that the firm, Covington & Burling, has kept an empty 11th floor corner office for Holder awaiting his return. Combined with Holder's purchase a year ago of a \$1.5 million condo just 300 feet from his new office raises serious questions about how long Holder knew he would be getting a major payday from his old firm even while it continued to represent companies under Department of Justice investigation. Yes ... the facebook post for me comprises predominantly a new headline/link and prior of such by quarter. For the last week it doesn't take the new post except in the comment with greater limitation as to size. For me, it's just a marker/pdf file (ie., <http://albertpeia.com/tweets-fbposts5-26-22.pdf> ) ultimately for my website ... no big deal.

**ZEROHEDGE Nancy Pelosi Finally Loses Some Money BY Sovereign Man**

Here's our Friday roll-up of the most ridiculous stories from around the world:

**..."FORGET ELON MUSK. HUNTER BIDEN MUST CLEARLY BE THE GREATEST BUSINESSMAN OF ALL TIME.**

***Yesterday, NBC News released an analysis of Hunter Biden's hard drive, showing that the Big Guy's son earned a whopping \$11 million over the past few years from Ukrainian and Chinese firms with which he did business. It's not clear exactly what Hunter, now a famous artist (what a Renaissance Man!), did to earn such a prodigious sum. Don't worry, though. President Biden is "sure his son did not break the law". Just like he was sure the Taliban would not recapture Afghanistan. [ Hunter Biden Used Burner-Phone And Data-Recovery Apps: Former US Secret Service Agent ]***

**NANCY PELOSI FINALLY LOSES SOME MONEY**

***Nancy Pelosi's investment acumen is the stuff of legends, perhaps only rivaled by Hunter Biden's business acumen.***

***For years, the US Speaker of the House raked in millions upon millions of dollars from conveniently well-timed stock and options trades— from which she has become one of the wealthiest women in the world. Not bad for a gal who has been in politics for her entire life. She truly embodies the American Dream!"...***
